Black Dogs Ian McEwan:

Black Dogs Ian McEwan, 2010-07-20 Set in late 1980s Europe at the time of the fall of the Berlin Wall *Black Dogs* is the intimate story of the crumbling of Bernard and June Tremaine's marriage as witnessed by their son-in-law Jeremy who seeks to comprehend how their deep love could be defeated by ideological differences that seem irreconcilable. In writing June's memoirs, Jeremy is led back to a moment that was for June as devastating and irreversible in its consequences as the changes sweeping Europe in Jeremy's own time. Ian McEwan weaves the sinister reality of civilization's darkest moods, its black dogs with the tensions that both create love and destroy it.

The Construction Of Meaning In "Black Dogs" By Ian McEwan Alexander Bortel, 2015-01-08 Abstract from the year 2008 in the subject English Language and Literature Studies Literature grade 2 0 Dublin Business School language English abstract Statements, texts, and events deliver information and construct meaning. We create meaning every time we speak. The construction of meaning is affected by various parameters, for example, to a certain degree by personality. In the novel *Black Dogs* written by Ian McEwan, the characters June and Bernard have different philosophies of life. Bernard is rational and strongly believes in science and its logic, whereas June is rather intuitive, spiritual, and has a metaphysical understanding of the world. Part of my work will be to show the impact of different philosophies of life on the interpretation of events, which again causes different meanings. June and Bernard represent diametrically opposed views of the construction and interpretation of meaning. Also, June's and Bernard's attitudes and personal experiences affect the construction of meaning.

Futurity Amir Eshel, 2013-01-14 When looking at how trauma is represented in literature and the arts, we tend to focus on the weight of the past. In this book, Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century's catastrophes at the expense of literature's prospective vision. Considering several key literary works, Eshel argues in *Futurity* that by grappling with watershed events of modernity, these works display a future-centric engagement with the past that opens up the present to new political, cultural, and ethical possibilities, what he calls futurity. Bringing together postwar German, Israeli, and Anglo-American literature, Eshel traces a shared trajectory of futurity in world literature. He begins by examining German works of fiction and the debates they spurred over the future character of Germany's public sphere. Turning to literary works by Jewish Israeli writers as they revisit Israel's political birth, he shows how these stories inspired a powerful reconsideration of Israel's identity. Eshel then discusses post-1989 literature from Ian McEwan's *Black Dogs* to J. M. Coetzee's *Diary of a Bad Year*, revealing how these books

turn to events like World War II and the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989 Bringing to light how reflections on the past create tools for the future Futurity reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow
