The Man Who Tasted Words Guy Leschziner,2022-02-22 In *The Man Who Tasted Words* Guy Leschziner leads readers through the senses and how through them our brain understands or misunderstands the world around us Vision hearing taste smell and touch are what we rely on to perceive the reality of our world Our senses are the conduits that bring us the scent of a freshly brewed cup of coffee or the notes of a favorite song suddenly playing on the radio But are they really that reliable *The Man Who Tasted Words* shows that what we perceive to be absolute truths of the world around us is actually a complex internal reconstruction by our minds and nervous systems The translation into experiences with conscious meaning the pattern of light and dark on the retina that is transformed into the face of a loved one for instance is a process that is invisible undetected by ourselves and in most cases completely out of our control In *The Man Who Tasted Words* neurologist Guy Leschziner explores how our nervous systems define our worlds and how we can in fact be victims of falsehoods perpetrated by our own brains In his moving and lyrical chronicles of lives turned upside down by a disruption in one or more of their five senses he introduces readers to extraordinary individuals like one man who actually tasted words and shows us how sensory disruptions like that have played havoc not only with their view of the world but with their relationships as well The cases Leschziner shares in *The Man Who Tasted Words* are extreme but
