Like Ants Andy Turnbull, 2017-11-10 **Land Use Management and Transportation Planning** C.B. Schoeman, 2015-05-07 The interface between land use management and transportation planning represents probably the most important spatial impact in sustainable land use mobility and transportation development Prior to this book only limited attempts have been made to integrate these topics as to enhance smart growth and sustainable development principles within spatial systems The approach followed differs internationally and specifically between different planning and transportation authorities The spatial impacts of land use and transportation serve as the main catalyst in urban form development and its associated problems These impacts represent severe consequences from a built and environmental development perspective All of these are covered in the book and its supporting chapters The focus of the book is the application of best practice principles in managing the interface between land use management and transportation planning Internationally the practice is the promotion of more sustainable urban and rural forms supported by improved levels of accessibility through the application of smart growth and sustainability principles The focus however remains to successfully optimise land use and transportation integration The structuring used within each of the chapters provide the reader with the basic and applicable theory and practical knowledge to attain system wide integration and sustainability within the dynamics of spatial and transportation systems The inclusion of specific theme related case studies endorses the relevancy of this book s topic Big Brains and the Human Superorganism Niccolo Leo Caldararo, 2017-09-05 This book examines why humans have big brains what big brains enable us to do and how specialized brains are associated with eusociality in animals It explores why brains expanded so slowly and then why they stopped growing This book whittles down the theories on brain size evolution to a few that represent testable hypotheses to identify logical and practical explanations for the phenomenon At the core of this book is data derived from original previously unpublished research on brain size in a number of social mammals This data supports the idea that evolution of the brain in humans is the result of social interaction This book also traces the products of the social brain ideology religion urban life housing and learning and adapting to dense complex social interactions It uniquely compares brain evolution in social animals across the animal kingdom and examines the nature of the human brain and its evolution within the social and historical context of complex human social structures Managing Information Systems Security and Privacy Denis Trcek, 2006-01-26 The book deals with the management of information systems security and privacy based on a model that covers technological organizational and legal views This is the basis for a focused and methodologically structured approach that presents the big picture of information systems security and privacy while targeting managers and technical profiles The book addresses principles in the background regardless of a particular technology or organization It enables a reader to suit these principles to an organization s needs and to implement them accordingly by using explicit procedures from the book Additionally the content is aligned with relevant standards and the

Tooneel der beroemder hertogen princen, graven ende krygs-helden van Christenryck binnen dese dry laeste eeuwen... oorspronck ende huydigen staet der vermaerder Republycken van Venetiën, Genua, Switserlandt ende Geneven, door N. D. C. Niclaes de Clerck,1617

Tooneel der beroemder hertogen, princen, graven ende krygs-helden van christenrijck binnen dese drij laeste eeuwen Niclaes de Clerck,1617

Uncertainty and Explanation in Medicine and the Health Sciences Olaf Dammann,2025-03-27 This book offers a comprehensive account of how uncertainty is tackled in medicine and the health sciences Olaf Dammann explores recent accounts of medicine as ineffective and suggests that the impression that medicine does not achieve its goal is at least in part due to the aleatoric natural uncertainty of biomedical processes and the subsequent epistemic cognitive uncertainty of those who desire solid information about such processes Dammann shows how concepts like inference explanation and causometry help mitigate this disconnect He points toward the possibility that some of the statistically rigid and formalized approaches such as the randomized controlled trial as the gold standard for the justification of medical interventions might better be replaced by approaches that emphasize the coherence of evidence and the people s needs for helpful health interventions auxiliarianism
