technology gave them an advantage Later on German tank designers developed technically superior tanks but these could not be built fast enough or in sufficient numbers For all their excellence they were overwhelmed by the American Shermans and Soviet T 34s that were produced in their tens of thousands In Hitler s Panzers Tucker Jones covers their design and production history from the earliest 1930 models to the Panzer IVs Panthers and Tigers which were the most formidable German tanks of the war and also assesses their combat performance presenting a fascinating insight into the decision making at the highest level which directed German tank design **Decisive Weapons** Martin Peter Davidson,Adam Levy,1996 This is the story of the weapons that for good or ill have shaped the world we live in of their origins and development of the people who used them and of the lives that were changed by their impact Armies & Weapons ,1977
