

Meditation and Its Practice

“You are a citizen of two worlds, the world within and the world without”

To be a successful person you will need to understand how to build a bridge between these two worlds

You will need to rest the entirety of your mind, and for that you should learn a new way of knowing yourself. That method of inner knowing is called meditation

The method he taught follows the approach of first focusing on the body, next the breath, then the senses, and finally the mind

“Do not meditate for the purpose of dwelling on the unconscious mind. Do it to form a channel for the presence of the Atman-the indwelling Self of all, do not brood”

Atman, the inner dweller

Blissful inner state called *Samadhi*

Chapter One

In meditation you are awake and alert, but not focused on the external world. Neither you are asleep, dreaming, or fantasizing. Instead, your mind is clear, relaxed, and inwardly focused

Meditation is simply a quiet, effortless, one-pointed focus of attention and awareness

Trying to make the mind empty is impossible anyways, in meditation we allow the mind to focus on one subtle element or object, which leads the attention further inward

Sounds which are used to concentrate the mind in meditation are called mantras

Good meditation teachers recognize and respect the universality of meditation and do not foster self-serving or cultish distinctions about their techniques

It is true that the whole of the body is in the mind, but the whole of the mind is not in the body
