Vidyasagar,Anil Chaudhary,1986 **Steps to Compliance with International Labour Standards** Lars Thomann,2011-09-26 For more than nine decades the International Labour Organization ILO has been responsible for setting up monitoring and implementing international labour standards in order to ensure that workers around the globe enjoy minimum social protection and workers rights Lars Thomann examines the ILO s wide ranging efforts to achieve compliance with international labour standards adopted by the organization and ratified by its member states The author draws on different compliance schools of various strands of international relations theory and discusses them against the background of the ILO s compliance efforts in general and regarding the abolition of forced labour in particular He shows that even though the ILO has experience in bringing about compliance given its seniority and is in many cases successful in doing so it is not well equipped to deal with persistent cases of non compliance The book is valuable reading for researchers
