AI in the Classroom Ross Smith, Mayte Cubino, Emily McKeon, 2025-10-16
DESCRIPTION: For thousands of years, education has been shaped by technology, from clay tablets and hornbooks to the printing press and now to digital learning platforms and remote education systems. As artificial intelligence becomes more embedded in our daily lives, its role in education continues to explode. AI tools offer personalized instruction, streamlined administrative tasks, and enhanced student engagement, creating a learning environment tailored to individual needs. This book offers a guide to AI understanding and implementation in the classroom and how it makes personalized learning practical, scalable, and achievable for all. Readers will understand how the advances in technology over time have led to improvements in education and how AI can enhance a personalized learning experience. The authors go in depth to find the latest research to explore the implementation of AI strategies and technology in the classroom, along with the critical and increasingly important focus on security, privacy, and ethical concerns. By the end of this book, the reader will have a robust understanding of AI and how it can help implement, facilitate, and augment personalized instruction strategies and techniques to support student learning and growth. The future of education is here, and it is intelligent, adaptive, and inspiring.

WHAT YOU WILL LEARN: Leverage AI to personalize learning. Prepare students for an AI-integrated world. Define a path for educators to navigate their professional development.
