This book is about what citizens must do in order to have a voice in matters of social action. Raising Children Who Think for Themselves Elisa Medhus M.D., 2011-02-22. Raising Children Who Think for Themselves offers a new approach to parenting that has the power to reverse the trend of external direction in our children and help parents bring up empathetic, self-confident, moral, independent thinkers. Children who are externally directed make decisions based on the peer groups, violent movies, sexually explicit television shows, and rap lyrics that permeate their lives. When children are self-directed, on the other hand, they use their power of reason like a sword to cut through the jungle of external influences. Fortunately, the author shows us it is never too late to foster in our children the ability to weigh options, consider sources, and think for themselves. Filled with real-life examples, humorous anecdotes, and countless interviews with parents, children, and teachers, *Raising Children Who Think for Themselves* identifies the five essential qualities of self-directed children. Outlines the seven strategies necessary for parents to develop these qualities in their children. Addresses nearly one hundred child-raising challenges from body piercing to whining wars and offers solutions to help encourage self-direction. How to Talk So Kids Can Learn Adele Faber, Elaine Mazlish, 2009-07-01.
