Liddle,Klaus-Dieter Schewe,A Min Tjoa,Xiaofang Zhou,2012-08-18 This two volume set LNCS 7446 and LNCS 7447 constitutes the refereed proceedings of the 23rd International Conference on Database and Expert Systems Applications DEXA 2012 held in Vienna Austria September 3 6 2012 The 49 revised full papers presented together with 37 short papers and 2 keynote talks were carefully reviewed and selected from 179 submissions These papers discuss a range of topics including database query processing in particular XML queries labelling of XML documents computational efficiency data extraction personalization preferences and ranking security and privacy database schema evaluation and evolution semantic Web privacy and provenance data mining data streaming distributed systems searching and query answering structuring compression and optimization failure fault analysis and uncertainty predication extraction and annotation ranking and personalisation database partitioning and performance measurement recommendation and prediction systems business processes social networking *Digital Marketing Expert Diploma (Master's level) - City of London College of Economics - 10 months - 100% online / self-paced* City of London College of Economics, Overview In this course you will learn all you need to know to become a Digital Marketing Expert As you surely know Digital Marketing Specialists are in high demand and well paid Content Digital Marketing Strategy Market Research Crowdsourcing Web

Development and Design Writing for the Web Mobile Development Email Marketing Online Advertising Affiliate Marketing Search Engine Marketing Search Engine Optimisation PPC Advertising And much more Duration 10 months Assessment The assessment will take place on the basis of one assignment at the end of the course Tell us when you feel ready to take the exam and we ll send you the assignment questions Study material The study material will be provided in separate files by email download link **Mind and Body in Early China** Edward Slingerland,2019 Mind and Body in Early China critiques Orientalist accounts of early China as a radical holistic other which saw no qualitative difference between mind and body Drawing on knowledge and techniques from the sciences and digital humanities Edward Slingerland demonstrates that seeing a difference between mind and body is a psychological universal and that human sociality would be fundamentally impossible without it This book has implications for anyone interested in comparative religion early China cultural studies digital humanities or science humanities integration **Information Polity** ,2008 *Weblogs. A Critical Analysis of a New E-business Model* Carina Schebitz,2018-06-18 Bachelor Thesis from the year 2016 in the subject Business economics Offline Marketing and Online Marketing grade 2 0 University of Applied Sciences Essen language English abstract The primary function of this bachelor thesis is to connect the subject of E Business models with the web 2 0 phenomenon of weblogs Therefore it is necessary to ascertain whether blogs can commercially perform as a characteristic of E Business models Furthermore this paper should reveal what specific factors need to be considered and which challenges can occur when professionally operating a blog Thus the digital economics research for example the literature of Kollmann Reynolds or Wirtz provide a broad base concerning the revenue models and the categorization of classical E Businesses such as E Commerce Websites However it does not scrutinize the particular requirements of weblogs On the other hand the relatively new body of literature about blogs focuses on the software and technological fundamentals the specific characteristics as well as the different characteristics Moreover in the year 2016 many professional bloggers exist that can make a living from their publishing occupation This indicates that weblogs already represent a form of an E Business model However the author does not know of published studies nor papers that have empirically investigated or described the business models of weblogs In order to fill that void the purpose of this bachelor thesis is to provide a systematical guideline from an economic perception in order to establish a weblog It will include potential risk factors and particular requirements as the following chapters will enumerate more clearly Ultimately this paper s aim is to serve potential future bloggers in gaining knowledge about factors they need to pay attention to from the beginning of their work as well as marketers that need to regard unwritten rules when it comes to working with influencers such as bloggers **Professional NoSQL** Shashank Tiwari,2011-09-13 A hands on guide to leveraging NoSQL databases NoSQL databases are efficient powerful tools for storing and manipulatingvast quantities of data Most NoSQL databases scale well as data grows and often are flexible enough to accommodate semi structured and sparse data sets This comprehensive hands on guide presents fundamental concepts and practical solutions

for using NoSQL databases Expert author Shashank Tiwari begins with a helpful introduction to NoSQL explaining its characteristics and typical uses He then looks at where it fits in the application stack His unique insights help you choose which NoSQL solutions are best for solving your specific data storage needs Professional NoSQL Demystifies key concepts that relate to NoSQL databases including column family oriented stores key value databases and document databases Delves into installing and configuring a number of NoSQL products and the Hadoop family of products Explains ways of storing accessing and querying data in NoSQL databases through examples that use MongoDB HBase Cassandra Redis CouchDB Google App Engine Datastore and more Examines architecture and internals Provides guidelines for optimal usage performance tuning and scalable configurations Presents a number of tools and utilities relating to NoSQL distributed platforms and scalable processing including Hive Pig RRDtool Nagios and more Wrox Professional guides are planned and written by working programmers to meet the real world needs of programmers developers and IT professionals Focused and relevant they address the issues technology professionals face every day They provide examples practical solutions and expert education in new technologies all designed to help programmers do a better job wrox com Programmer Forums Join our Programmer to Programmer forums to ask and answer programming questions about this book join discussions on the hottest topics in the industry and connect with fellow programmers from around the world Code Downloads Take advantage of free code samples from this book as well as code samples from hundreds of other books all ready to use Read More Find articles ebooks sample chapters and tables of contents for hundreds of books and more reference resources on programming topics that matter to you   **An Ugly Truth** Sheera Frenkel,Cecilia Kang,2021-07-13 The award winning insiders account of the scandals and toxic culture at Facebook thorough high caliber investigative reporting Kirkus starred review In An Ugly Truth New York Times reporters Sheera Frenkel and Cecilia Kang present a behind the scenes expos of Facebook s fall from grace They reveal explosive details about how the tech giant set out to connect the world while also mishandling users data spreading fake news and amplifying dangerous polarizing hate speech The company many said had simply lost its way But the truth is far more complex Facebook s engineers were instructed to create tools that encouraged people to spend as much time on the platform as possible even if that meant promoting inflammatory rhetoric conspiracy theories and partisan filter bubbles And while consumers and lawmakers were outraged by privacy breaches and misinformation Facebook solidified its role as the world s most voracious data mining machine posting record profits and shoring up its dominance via aggressive lobbying efforts Drawing on their unrivaled sources Frenkel and Kang take readers inside the alliances and rivalries within the company to demonstrate that the company s missteps were no such thing this is how Mark Zuckerberg and Sheryl Sandberg built Facebook to perform In An Ugly Truth they are at last held accountable A Book of the Year Fortune Foreign Affairs The Times London Cosmopolitan TechCrunch WIRED   Searcher ,2005   *Web 2.0 for Librarians and Information Professionals* Ellyssa Kroski,2008 Using an easy to understand writing style Ellyssa Kroski helps public school and academic

librarians take advantage of Web 2 0 technologies She provides innovative real world examples of libraries which are using these technologies to enhance their online presence showcase services and increase patronage   Proceedings of the Twenty-second AAAI Conference on Artificial Intelligence ,2007   Understanding Digital Marketing Damian Ryan,Calvin Jones,2009 Taking a look at the world of digital marketing this work shows readers in a practical and comprehensive way how to harness the power of digital media and use it to achieve the utmost success for their businesses   **Connected Newsletter** ,2006   **Statistics Explained** ,2011   *Business Web Strategy* Latif Al-Hakim,2009-01-01 This book addresses the gap in business Web strategy through a collection of concentrated managerial issues gathering the latest theoretical frameworks case studies and research pertaining to maximizing the power of the Web Provided by publisher
