Emerging Technologies and Business Development in the Tropics Nurhafihz Noor,Tan Kim Lim,Haejin

Jang,Jacob Wood,K. Thirumaran,2026-03-06 It has been reported that those who live in the Tropics find themselves on the wrong side of the digital divide and lack access to basic technological infrastructure including internet connectivity However

a closer look at the state of digital and technology innovation in this region reveals a more fragmented picture Against a backdrop of needing to grow businesses and seek new opportunities to unleash the potential of the Tropics the existing tensions and opportunities that technology brings to this region and the evolutionary change in business proposition and value chain there is much to still be done to better understand these issues With a Tropical region focus this book explores the extent to which emerging technologies impact business development at nation specific and regional levels It unravels the diverse factors and practices that emerge through technological innovation and its role in driving business development in the Tropics The topics covered in the book include diffusing innovations in the Tropics designing digital customer touchpoints in the Tropics synergizing operations and connectivity in the Tropics and securing the future of Smart Tropics Targeted primarily at academics business practitioners and public policy experts operating in the product and service economies this book provides theoretical and practical insights for anyone interested in the role that emerging technologies may play in business development in the Tropics

AI Snake Oil Arvind Narayanan, Sayash Kapoor, 2025-09-23 From two of TIME's 100 Most Influential People in AI what you need to know about AI and how to defend yourself against bogus AI claims and products Confused about AI and worried about what it means for your future and the future of the world You're not alone AI is everywhere and few things are surrounded by so much hype misinformation and misunderstanding In *AI Snake Oil* computer scientists Arvind Narayanan and Sayash Kapoor cut through the confusion to give you an essential understanding of how AI works and why it often doesn't where it might be useful or harmful and when you should suspect that companies are using AI hype to sell AI snake oil products that don't work and probably never will While acknowledging the potential of some AI such as ChatGPT *AI Snake Oil* uncovers rampant misleading claims about the capabilities of AI and describes the serious harms AI is already causing in how it's being built marketed and used in areas such as education medicine hiring banking insurance and criminal justice The book explains the crucial differences between types of AI why organizations are falling for AI snake oil why AI can't fix social media why AI isn't an existential risk and why we should be far more worried about what people will do with AI than about anything AI will do on its own The book also warns of the dangers of a world where AI continues to be controlled by largely unaccountable big tech companies By revealing AI's limits and real risks *AI Snake Oil* will help you make better decisions about whether and how to use AI at work and home
