Designing and Implementing Multimodal Curricula and Programs J. C. Lee, Santosh Khadka, 2018-01-19 This volume presents a comprehensive overview of multimodal approaches to curriculum and programmatic implementation across a diverse range of teaching environments and across geographic and cultural boundaries Featuring contributions from scholars within and across both disciplines the book examines the ways in which new technologies link to expanding definitions of literacy and

building on this how multimodal approaches might most effectively address the unique opportunities and challenges instructors face in contemporary classrooms and professional development programs Chapters draw on case studies from both existing scholarship and findings from the authors own experiences in practice including examples from writing rhetoric and composition courses open online learning courses and interdisciplinary faculty training programs The final section of the book showcases how the conversation might be further extended to address increasingly multilingual classrooms by exploring how multimodality has been implemented in transnational settings Engaging with key questions at the intersection of programmatic and curricular development and multimodal studies this book is a fundamental resource for graduate students and scholars in multimodality rhetoric studies language education applied linguistics and communication studies

Richardson,2006-03-13 We need a solid book explaining and illustrating and letting teachers know about these powerful tools This book meets the need in an awesome way Mike Muir Director Maine Center for Meaningful Engaged Learning This author is a gem It startles me to be pulled so happily through a text about these new Web tools in the context of good literacy instruction Gary Graves Senior Research and Evaluation Advisor Technology in Education Northwest Regional Educational Laboratory This book brings teachers a bold vision and on the ground Monday morning practicality It will move educators to think differently about technology s potential for strengthening students critical thinking writing reflection and interactive learning Will Richardson demystifies words like blog wiki and aggregator making classroom technology an easily accessible component of classroom research writing and learning This guide demonstrates how Web tools can generate exciting new learning formats and explains how to apply these tools in the classroom to engage all students in a new world of synchronous information feeds and interactive learning With detailed simple explanations definitions and how tos critical information on Internet safety and helpful links this exciting book opens an immense toolbox with specific teaching applications for o Web logs the most widely adopted tool of the read write Web o Wikis a collaborative Web space for sharing published content o Rich Site Summary RSS feeding specific content into the classroom o Aggregators collecting content generated via the RSS feed o Social bookmarking archiving specific Web addresses o Online photo galleries This book makes it possible for anyone

no matter how inexperienced to harness this amazing technology for the classroom today

Teaching Middle School Writers Laura Robb, 2010 My whole goal with this book was to come at teaching writing from the angle that matters most students perspective They taught me what I needed to know to make this book live up to their passion for writing Laura Robb Adolescents have robust and rewarding writing lives outside of school that involve journals emails text messages blogs and an astounding array of genres Unlike their personal reading lives that teachers frequently tap into their personal writings typically exist under the curricular radar that is until now While grounded in the common schedule constraints and curriculum demands of middle school Laura Robb s Teaching Middle School Writers offers teachers lessons and routines that are uncommonly attuned to adolescents developmental and social needs As she taps into the energy and enthusiasm of adolescents personal writing lives Laura presents writing plans that support first drafts strategies for crafting leads that grab and endings that satisfy grammar lessons that address writing conventions editing lessons that have students revise their writing before the teacher reads it guidelines for grading and responding to student work Straight from the classroom writing samples and videos give teachers the opportunity to see how Laura uses compelling questions and powerful mentor texts to teach writing support struggling writers and weave twenty first century literacies into the writing curriculum Throughout teachers learn ways of connecting to students lives in order to bring out their best writing their best self Watch a video overview

THE Journal ,2004 **Learning and Leading with Technology** ,2007 School Library Journal ,2010 **Languages for Today's World** Marcia L. Wilbur, Charles Maurice Cherry, 2006 **Computer Education for Teachers** Vicki F. Sharp, 2004-06 Designed to meet the needs of the student unfamiliar with the use of the computer in the classroom this text is written for undergraduate and graduate education students who want an up to date readable practical and concise introduction to computers for teachers Included in the text are a wealth of classroom lessons that integrate technology

The Digital Writing Workshop Troy Hicks, 2009 Where others have talked about new technologies and how they change writing Troy Hicks shows how to use new technologies to enhance writing instruction Chapters are organized around the familiar principles of the writing workshop student choice active revision craft publication beyond the classroom and assessment of product and process You ll learn to expand and improve your teaching by smartly incorporating new technologies like wikis blogs and other forms of multimedia Throughout you ll find reference to resources readily available to you and your class online

CLA Journal ,2015 Nursing Education Perspectives ,2008 Innovative Approaches to Literacy Education Rachel A. Karchmer, 2005 How do educators best prepare students for the new literacies that will define their future Quite possibly that is the single greatest challenge they face in literacy education today Innovative Approaches to Literacy Education Using the Internet to Support New Literacies will help K 12 educators respond to this challenge with valuable insight on the fundamental changes to literacy literacy learning and literacy instruction that are brought forth by information and communication technologies Editors Rachel A Karchmer Marla H Mallette Donald J Leu Jr and Julia Kara

Soteriou make important connections among theory research and practice by offering the stories of pioneering award winning classroom teachers who successfully use the Internet to support literacy instruction and scholars who study the relationship between literacy and technology With this powerful combination of perspectives educators will discover new instructional ideas and resources for their classrooms new visions of instructional possibilities for their schools and districts and new ways to view their work in light of new literacies definition of literacy but also transform the nature of literacy instruction in their classrooms as they integrate the Internet and other information and communication technologies into
