Presentation comments	
1	People – The talk is so boring. I couldn't see any point. I thought it was supposed to be about how to tidy your house.
2	Bill – It's not so boring with Graham Hill. He's really funny and it's really motivating. I think I'll try to lose more stuff now. It's a really useful message.
3	Steve – Good job, and certainly has. I don't see the point, but I must try.

The comments were created for the activity.

 - What other props might Graham Hill have used to reach his aim?
- 2 **Work in pairs.** Prepare a two-minute mini presentation. Make some brief notes on one of these topics. Think of a simple prop you could use to illustrate each of the talk topics.

While iWork 05 helps you create stunning documents and presentations, the suite doesn't come with any in-depth documentation of its own. That's where iWork 05 The Missing Manual comes in. The book that should have been in the box it gives you everything you need to master iWork 05. Seamlessly integrated with the wildly popular iLife 05 and designed to take advantage of the advanced typography and graphics engine of Mac OS X, iWork is actually two separate programs: Pages and Keynote 2. Pages is a brand-new streamlined word processor and page layout program that allows nonprofessionals to quickly and painlessly produce gorgeous brochures, newsletters, letters, invitations, product data sheets, and more. You can start documents from scratch or use one of the 40 professionally designed templates as a starting point. Keynote 2 is a significant upgrade to Keynote, Apple's PowerPoint-like presentation software that allows you to build unique presentations, demonstrations, storyboard animations, interactive slideshows, and more. Like every Missing Manual, this one is refreshingly entertaining and scrupulously detailed. iWork 05 The Missing Manual gives you all the essentials of Pages and Keynote 2, including an objective look at each program's capabilities, its advantages over similar programs, and its limitations. The book delivers countless goodies that you won't find anywhere else: undocumented tips, tricks, and secrets for getting the very best results from both exciting new applications. With the iWork 05 suite and iWork 05 The Missing Manual, you are totally equipped to give your work the style it deserves.
