A new chapter in the section on heart failure details cardiac transplantation. The sections on primary heart disease include new chapters on topics such as preventive strategies for coronary artery disease and updated pharmacologic strategies for acute coronary syndromes. The section on cardiopulmonary disease features new chapters on chronic cor pulmonale and sleep disorder breathing and its relationship to cardiovascular disease. The section on valvular heart disease has four of the six chapters completely rewritten by new authors who are authorities in the field. The final six sections feature new chapters on the environment and heart disease, surgical treatment of carotid and peripheral vascular disease, and cost-effective strategies in cardiology.

America's Top Doctors, Castle Connolly Medical Ltd, 2005. The selection of medical providers for inclusion in this book was based in part on opinions solicited from physicians, nurses, and other health care professionals. The author and publishers cannot assure the accuracy of information provided to them by third parties, since such opinions are necessarily subjective and may be incomplete. The omission from this book of particular health care providers does not mean that such providers are not competent or reputable.
