Evidence Notes	Instruction	Rating
<p>Whole lesson was conducive to students taking initiative of their learning. T allowed students to make mistakes and to come up with alternate ideas and alternate plans. The objective was to “To work in a group setting, develop a plan of action, create a plan of action to accomplish a task.” The teacher questioned and encouraged students keep trying, to try different things, to attempt different plans. The teacher anticipated various student difficulties throughout the lesson. The teacher modeled the process for moving from one place in the gym to another by not touching the floor. The teacher also modeled how to make a connection to how the skills can be applied to real world before students work in groups with the chart paper to help avoid common learning pitfalls.</p> <p>The lesson objective was posted and stated at beginning of lesson: Students will create and implement a plan engaging cooperative group work using eye contact, active listening and appropriate voice to achieve and set group goals. The agenda was posted on wall: 1. Changeable spot 2. Warm up (5%) Attendance 3. Get Over Here Activity. The teacher posted an “essential question” on the wall to set a purpose for the lesson of the day which connected directly to the lessons state standards and daily objective. The teacher states, “Today we are going to work on the activity called “Get Over Here”. The teacher connects back to objective in the middle of the lesson. “Please keep in mind what our objectives says... cooperation and communication skills.” Teacher closes the lesson with a reflection and connection to what they learned and real world examples. Learning objectives are connected to what students know from life experience. The teacher makes several connections at the end of the lesson to real world. (“You will need good listening skills for a job, in school when talking to a teacher, the president needs good listening skills, etc.”)</p>	<p>Achieving Expectations</p>	<p>Accomplished 4 (hold out on rating Distinguished because of the 4<sup>th</sup> bullet about systematically enabling students to set goals for themselves and monitor their progress over time.)</p>
