Effective Instructional Strategies Kenneth D. Moore, 2009 Applying the latest research findings and practical classroom practices this book provides thorough coverage of the strategies and skills needed for effective teaching **Introduction to Teaching** Gene E. Hall, Linda F. Quinn, Donna M. Gollnick, 2013-01-04 An introduction to teaching and education showing prospective teachers how to inspire learning in students It is packed with learning features such as teacher interviews and challenging assumption boxes to engage students and encourage debate **Instructional Process and Concepts in Theory and Practice** Celal Akdeniz, 2016-11-22 This book offers an accessible practical and engaging guide that provides sample instructional activities supported by theoretical background information with a focus on the nature of the instructional process in relation to several variables It approaches instructional models strategies methods techniques tactics and planning from a new perspective and shares effective tips to help readers better understand the instructional process and its theoretical elements The book addresses the following questions What is the nature of the instructional process What are the classifications of contemporary models and strategies developed within the instructional process Which groups yield the most effective methods and techniques and how can they best be practically implemented What are the instructional tactics teachers need to take into consideration in which groups are they collected and which tips can help us employ each tactic Additionally readers can adapt the book's ready to use sample activities to their own educational settings Overall this book offers an enlightening discussion on contemporary practices related to the teaching process a broad and holistic theoretical framework and an ideal reference source for all students and scholars who are interested in the educational sciences **Effective Teaching** Gilbert H. Hunt, Dennis G. Wiseman, Timothy J. Touzel, 2009 Schools today have transcended from the chalkboard to the whiteboard and are populated by students who are not frightened to use the technology of this new age of learning During this period of dynamic change teachers must be ready to meet the challenges of preparing students for a global society characterized by diversity and ever increasing expectations *Curriculum Design* Dr. Rakesh Gupta, 2020-09-03 Curriculum Design may be defined as a strategic process of informed and deliberate construction of learning opportunities to enable learners to achieve the appropriate level and scope of discipline skills knowledge and understanding on completion of a unit of study The curriculum should be broad based so as to accommodate the needs of varied categories of pupils so that they are able to take up subjects and participate in activities according their capacities and interests The book covers Modern Concept of the Curriculum Basic Guideline for Curriculum Construction Contest Selection and Expansion Curriculum Old and New Concepts Mechanics of Curriculum Planning Undergraduate Preparation of Professional Preparation General Pedagogy Martha M. A. Zama, Margaret Nalova Endeley, 2023-02-24 General Pedagogy A Guide to Effective Teaching demystifies the scientific art of teaching by providing facts principles and concrete examples in real life situations such that neither the novice teacher who peruses it will stutter in front of students

on the first day of school nor will the experienced teacher write and execute the same old lesson plans on that day The best teachers are those who show you where to look but don't tell you what to see is a popular quote attributed to Alexandra K Trenfor which aptly summarises the kind of teachers this book intends to produce when used as a teacher training resource Real teachers facilitate learning they do not simply tell learners the answers to their questions and concerns Accordingly the authors take the readers through well researched themes in the academic discipline of teaching wherein they present analyse and discuss pertinent issues Although they provide useful suggestions for teaching success the authors encourage teachers to interpret facts ideas and suggestions presented against the sociocultural contexts of their practice The materials are presented creatively while adding a personal touch intended to facilitate effective and efficient learning For coherence and better comprehension the book has been carefully crafted in eighteen chapters lodged in six parts The first part introduces the reader to the concepts of teaching and teaching effectiveness The theoretical underpinnings of these concepts are brought out in the second part which paves the way for the third part that describes generic teaching approaches strategies and methods Part four and five comprise essential teaching skills and teaching tools for the 21st century while part six wraps up with the transition from teacher training laboratories to classrooms in the real world The last two chapters intentionally prepare the teacher to overcome challenges of professional work in contemporary African classrooms
