Serverless Web Applications with React and Firebase Mayur Tanna, Harmeet Singh, 2018-04-10. Build rich and collaborative applications using client side code with React, Redux and Firebase.

Key Features:
1. A practical guide covering the full stack for web development with React 16 and Firebase.
2. Leverage the power of Firebase Cloud Storage, messaging functions, OAuth and database security to develop serverless web applications.
3. Develop high performance applications without the hassle of setting up complex web infrastructure.

Book Description: ReactJS is a wonderful framework for UI development. Firebase as a backend with React is a great choice as it is easy, powerful and provides great developer experience. It removes a lot of boilerplate code from your app and allows you to focus on your app to get it out quickly to users. Firebase with React is also a good choice for Most Viable Product (MVP) development. This book provides more practical insights rather than just theoretical concepts and includes basic to advanced examples from hello world to a real time seat booking app and Helpdesk application. This book will cover the essentials of Firebase and React.js and will take you on a fast paced journey through building real time applications with Firebase features such as Cloud Storage, Cloud Function, Hosting and the Realtime Database. We will learn how to secure our application by using Firebase authentication and database security rules. We will leverage the power of Redux to organize data in the front end since Redux attempts to make state mutations predictable by imposing certain restrictions on how and when updates can happen. Towards the end of the book you will have improved your React skills by realizing the potential of Firebase to create

real time serverless web applications What you will learn Install powerful React js and Firebase tools to make development much more efficient Create React components with Firebase to save and retrieve the data in real time Use Firebase Authentication to make your React user interface secure Develop React and Firebase applications with Redux integration Firebase database security rules Firebase Cloud Storage Integration to upload and store data on the cloud Create a complete real time application with React and firebase Using Firebase Cloud messaging and Cloud functions with React Firebase Cloud Storage integration with React Who this book is for This book is for JavaScript developers who have some previous knowledge of React and want to develop serverless full stack applications but without the hassle of setting up a complex infrastructure
