Young Adult and Canonical Literature Paula Greathouse, Victor Malo-Juvera, 2021-03-10 In the last decade alone the world has changed in seismic ways as marriage equality has been ruled on by the supreme court social justice issues such as metoo and BlackLivesMatter have arisen and issues of immigration and deportation have come to the forefront of politics across the globe Thus there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has and continues to experience The purpose of our collection is to offer secondary 6 12 teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not afford Our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an extension of the canonical Within each volume the chapters are organized chronologically according to the publication date of the canonical text The pairings offered in this collection allow for comparisons in some cases for extensions in others and for critique in all

Museums in Motion Juilee Decker, 2024-08-06 This book explores the histories and functions of museums while also looking at the current standing of museums and their ongoing efforts toward relevance resiliency and future proofing Section I examines the beginnings of museums with chapters dedicated to art and design museums natural history and anthropological museums science museums museums focused history and the past and gardens zoos and children's museums Emphasis is on museums in the United States with some historical framing beyond the U S Section II explores the primary functions of museums including conservation exhibition interpretation engagement and service Section III examines museums from within by exploring critical issues and contemporary movements facing museums and our society transparency and openness labor and equity belonging and coalition building risk taking and risk aversion and sustainability and empathy Advocating for change rather than death to museums Museums in Motion demonstrates the very premise that museums have been in motion all along as they have shifted from their rather simple form of a treasury storehouse and tomb to something much more complex by deeply considering where museums have come from where they are today and where

they are going Entirely new to this edition Section III Museum Aspirations features five new chapters each centered around topics rather than a museum type or museum function Each topic is meant to be a micro narrative and springboard for a conversation about museums today and their sustainability in the future The chapters examine museums from the inside museum workers and their voices especially as well as power held by people and institutions and DEIA without using those individual words as chapter headings On their own or in conjunction with the chapters in the previous sections of this book these chapters serve as vignettes that can help readers to understand where how and why we need to apply critical lenses to institutions and articulate how doing so helps us to understand this historical moment and ultimately how we can realize resiliency and sustainability for museums and those who make their existence possible
