Werner Hegemann And The Search For Universal Urbanism Craseman Christine Collins,2005-04-26 Werner Hegemann 1881 1936 a German born multidisciplinary critic of the built environment was well known in Europe and the United States in his lifetime A critic rather than a designer he did not fit easily into any school or category To those seeking to promote modernism Hegemann was something of an awkward figure influential and undoubtedly authoritative but unorthodox Today however when studies of modernism have largely shed their proselytizing role he is of great relevance Our interest now is less in those who proposed the answers than in those who asked the questions and particularly the way in which those questions were framed For this Hegemann is a key figure Based on documentation largely unavailable in English including Hegemann s published and unpublished writings his correspondence his diaries the author s interviews archival materials lent to her by Hegemann s widow and the author s own substantial collection this is the first comprehensive study of Hegemann for historians architects and urbanists BOOK JACKET Forest Plans of North America Jacek P. Siry,Pete Bettinger,Krista Merry,Donald L. Grebner,Kevin Boston,Chris Cieszewski,2015-03-13 Forest Plans of North America presents case studies of contemporary forest management plans developed for forests owned by federal state county and municipal governments communities families individuals industry investment organizations conservation organizations and others in the United States Canada and Mexico The book provides excellent real life examples of contemporary forest planning processes the various methods used and the diversity of objectives and constraints faced by forest owners Chapters are written by those who have developed the plans with each contribution following a unified format and allowing a common clear presentation of the material along with consistent treatment of various aspects of the plans This work complements other books published by members of the same editorial team Forest Management and Planning Introduction to Forestry and Natural Resource Management which describe the planning process and the various methods one might use to develop a plan but in general do not as this work does illustrate what has specifically been developed by landowners and land managers This is an in depth compilation of case studies on the development of forest management plans by the different landowner groups in North America The book offers students practitioners policy makers and the general public an opportunity to greatly improve their appreciation of forest management and more importantly foster an understanding of why our forests today are what they are and what forces and tools may shape their tomorrow Forest Plans of North America provides a solid supplement to those texts that are used as learning tools for forest management courses In addition the work functions as a reference for the types of processes used and issues addressed in the early 21st century for managing land resources Presents 40 50 case studies of forest plans developed for a wide variety of organizations groups and landowners in North America Illustrates plans that have specifically been developed by landowners and land managers Features engaging clearly written content that is accessible rather than highly technical while demonstrating the issues and methods involved in

the development of the plans Each chapter contains color photographs maps and figures
