

Its a long and lonely highway,
when youre traveling all alone
I was on my way to nowhere,
but now Im coming home,
Im coming home

Ive been running through the fire,
Ive been burning for so long
If I took it any higher,
baby, I would be still be gone

And now Im coming home,
coming home, Im coming home
Im coming home, coming home,
I'm coming home

Well, my home was really never,
on a far and distant shore
If I stayed away forever,
I could never miss you more

And so Im coming home,
coming home, Im coming home
Im coming home, coming home,
I'm coming home

I think of all the years gone by,
never even wondered why,
I never touched the ground
All the time thats come and gone,
all the nights Ive spent alone,
and now Im homeward bound

I heard the thunder over Canaan,
and I heard the angels cry

web there are three basic types of small induction motors split phase single phase shaded pole single phase and polyphase in two pole single phase motors the torque goes to zero at 100% slip zero speed so these require alterations to the stator such as shaded poles to provide starting torque

web dec 15 2021 figure 1 a single phase induction motor stator produces a pulsating magnetic field rather than a rotating one as in a three phase motor this means there is no torque when the rotor is stationary once it is moving the currents induced in the rotor create a magnetic field that interacts with the pulsating field to produce a torque and thus
