Harnessing the Internet of Everything (IoE) for Accelerated Innovation Opportunities Cardoso, Pedro J.S.,Monteiro, Jânio,Semião, Jorge,Rodrigues, João M.F.,2019-02-15 As innovators continue to explore and create new developments within the fields of artificial intelligence and computer science subfields such as machine learning and the internet of things IoT have emerged Now the internet of everything IoE foreseen as a cohesive and intelligent connection of people processes data and things is theorized to make internet connections more valuable by converting information into wise actions that create unprecedented capabilities richer experiences and economic opportunities to all players in the market Harnessing the Internet of Everything IoE for Accelerated Innovation Opportunities discusses the theoretical design evaluation implementation and use of innovative technologies within the fields of IoE machine learning and IoT Featuring research on topics such as low power electronics mobile technology and artificial intelligence this book is ideally designed for computer engineers software developers investigators advanced level students professors and professionals seeking coverage on the various contemporary theories technologies and tools in IoE engineering Advances in Parallel Computing Technologies and Applications D. Jude Hemanth,Mohamed Elhosney,Tu N. Nguyen,Sairamesh Lakshmanan,2021-11-15 Recent developments in parallel computing mean that the use of machine learning techniques and intelligence to handle the huge volume of available data have brought the faster solutions offered by advanced technologies to various fields of application This book presents the proceedings of the Virtual International Conference on Advances in Parallel Computing Technologies and Applications ICAPTA 2021 hosted in Justice Basheer Ahmed Sayeed College for women formerly S I E T Women s College Chennai India and held online as a virtual event on 15 and 16 April 2021 The aim of the conference was to provide a forum for sharing knowledge in various aspects of parallel computing in communications systems and networking including cloud and virtualization solutions management technologies and vertical application areas It also provided a platform for scientists researchers practitioners and academicians to present and discuss the most recent innovations and trends as well as the concerns and practical challenges encountered in this field Included here are 52 full length papers selected from over 100 submissions based on the reviews and comments of subject experts Topics covered include parallel computing in communication machine learning intelligence for parallel computing and parallel computing for software services in theoretical and practical aspects Providing an overview of the latest developments in the field the book will be of interest to all those whose work involves the use of parallel computing technologies Proceedings of Data Analytics and Management Abhishek Swaroop,Bal Virdee,Sérgio Duarte Correia,Zdzislaw Polkowski,2025-06-11 This book includes original unpublished contributions presented at the International Conference on Data Analytics and Management ICDAM 2024 held at London Metropolitan University London UK during June 2024 The book covers the topics in data analytics data management big data computational intelligence and communication networks The book presents innovative work by leading academics

researchers and experts from industry which is useful for young researchers and students The book is divided into six volumes *Proceedings of the International Conference on Artificial Intelligence and Computer Vision (AICV2020)* Aboul-Ella Hassanien,Ahmad Taher Azar,Tarek Gaber,Diego Oliva,Fahmy M. Tolba,2020-03-23 This book presents the proceedings of the 1st International Conference on Artificial Intelligence and Computer Visions AICV 2020 which took place in Cairo Egypt from April 8 to 10 2020 This international conference which highlighted essential research and developments in the fields of artificial intelligence and computer visions was organized by the Scientific Research Group in Egypt SRGE The book is divided into sections covering the following topics swarm based optimization mining and data analysis deep learning and applications machine learning and applications image processing and computer vision intelligent systems and applications and intelligent networks *Artificial Intelligence and Renewables Towards an Energy Transition* Mustapha Hatti,2020-12-17 This proceedings book emphasizes adopting artificial intelligence based and sustainable energy efficiency integrated with clear objectives to involve researchers students and specialists in their development and implementation adequately in achieving objectives The integration of artificial intelligence into renewable energetic systems would allow the rapid development of a knowledge based economy suitable to the energy transition while fully integrating the renewables into the global economy This is how artificial intelligence has hand in by conceptualizing this transition and above all by saving time The knowledge economy is valued within the smart cities which are fast becoming the favorite places where the energy transition will take place efficiently and intelligently by implementing integrated approaches to energy saving and energy supply and integrated urban approaches that go beyond individual interventions in buildings or transport modes using information and communication technologies **IoT Based Smart Applications** Nidhi Sindhwani,Rohit Anand,M Niranjnamurthy,Dinesh Chander Verma,Emilia Balas Valentina,2022-09-30 This book provides insights into IoT its applications and various implementation techniques The authors first discuss the IoT design methodology to define the domain model They then cover various connection methodologies used in IoT such as Ethernet Wi Fi low powered wide area network LPWAN Bluetooth RFID cellular and satellite and more along with their challenges An example is made on the designing process using Arduino which offers smart connected and secure elements they also illustrate the integration of IoT with Blockchain cloud machine learning big data embedded software sensors etc The book going on to cover the future of IoT in various sectors and how IoT will continue to be game changing technology **Home Automation with Raspberry Pi: Projects Using Google Home, Amazon Echo, and Other Intelligent Personal Assistants** Donald Norris,2019-05-03 Publisher s Note Products purchased from Third Party sellers are not guaranteed by the publisher for quality authenticity or access to any online entitlements included with the product Gain the skills needed to create a hi tech home affordably and easily This hands on guide shows step by step how to use the powerful Raspberry Pi for home automation Written in an easy to follow style the book features DIY projects for Amazon Echo Google Home smart lightbulbs and thermostats and more

Home Automation with Raspberry Pi Projects Using Google Home Amazon Echo and Other Intelligent Personal Assistants lays out essential skills for hobbyists and makers of all ages and experience levels You will discover how to build gadgets that can work in conjunction with or in some cases replace commercially available smart home products Inside you ll learn how to Design and build custom home automation devices Interface a Google Home device to your Raspberry Pi Connect Google Voice Assistant to RasPi Incorporate GPIO control using the Amazon Echo Navigate home automation operating systems Use Z Wave in your RasPi HA projects Apply fuzzy logic techniques to your projects Work with sensors and develop home security systems Utilize two open source AI applications Mycroft and Picroft Tie your projects together to create an integrated home automation system
