Summary of Mortality: Christopher Hitchens' Essays on Dying by Christopher Hitchens BestPrint, 2021-08-30 **Mortality** 2012 presents a collection of essays written by Christopher Hitchens after he was diagnosed with esophageal cancer In these blinks you'll explore fundamental questions addressing death and life the nature of pain and how we cope with them

[Summary of Christopher Hitchens's Mortality](#) Everest Media, 2022-04-30T22:59:00Z Please note This is a companion version not the original book **Sample Book Insights** 1 Christopher's funeral was held in the Great Hall at Cooper Union in Greenwich Village His friends and colleagues read from his work and Hollywood stars such as Sean Penn attended 2

Christopher was one of life's singular characters. He was a wit, a charmer, a troublemaker, and a dear and devoted friend. He was a man of insatiable appetites for cigarettes, for scotch, for company, and for great writing. Christopher was a legend on the speaking circuit and could debate just about anyone on anything. He won umpteen awards and in the last decade he wrote bestsellers including his well-received memoir *Hitch 22*.⁴ I had a heart attack and while I was still in denial, my doctors took me to an oncologist. The shadow was spreading itself across the negatives. *Mortality's Muse* D. T. Siebert, 2013-10-10

The inevitability of death, that of others and our own, is surely among our greatest anxieties. *Mortality's Muse: The Fine Art of Dying* explores how art, mainly literary art, addresses that troubling reality. While religion and philosophy offer important consolations for life's end, art responds in ways that are perhaps more complete and certainly more deeply human. Among subjects treated: the *ars moriendi* or art of dying tradition, the contrast between past and more recent cultural values, the religious consolation's value but shortcoming for some people, the role of art in offering a secular consolation, dying as a performing art, the philosophic ideal of good death, the lively appeal of *carpe diem* or living for the present moment, the elegiac sense of life, and the two opposite parts *Mortality's Muse* has played in dealing with war, the most senseless and unnecessary cause of death. The idea of an aesthetic sense of life forms the basis of these discussions. Human beings are makers in the largest sense of the word, and art represents everything they make: civilization itself, with all its greatness and failings. Our civilization may ultimately be nothing but an evanescent blip in the cosmos. Even so, the creation of beauty, meaning, and purpose from disorder and suffering defines us as human beings. In the words of Robinson Jeffers, even if monuments eventually crumble and all art perish, yet for thousands of years, carved stones have stood and pained thoughts found the honey of peace in old poems. **The God Debaters** Adrian Rosenfeldt, 2022-05-04

This book examines the post-9/11 God debate in the West. Through a close study of prominent English God debaters, Richard Dawkins, Karen Armstrong, Christopher Hitchens, and Terry Eagleton, Adrian Rosenfeldt demonstrates that New Atheist and religious apologist ideas and arguments about God, science, and identity are driven by mythic autobiographical narratives and Protestant or Catholic cultural heritage. This study is informed by criticism of the New Atheist polemic as being positivistic and the religious apologists as propagating sophisticated theology. In both cases, the God debaters are perceived as disassociating themselves from human lived experience. It is through reconnecting the God debaters' intellectual ideas to their cultural and social background that the God debate can be grounded in a recognizable human reality that eludes reductive distinctions and disembodied abstractions. *The Christopher Hitchens 4-Book Collection* Christopher Hitchens, 2013-12-10

Christopher Hitchens is the greatest essayist in the English language. Christopher Buckley: Christopher Hitchens has long been considered one of the most compelling and intelligent writers and orators on our time. acclaimed psychologists whose life's work has focused on death anxiety examine all the major human responses to death across history. From the development of religious systems denying the finality of death to immortality projects involving enduring art, architecture, and literature, some of the consequences of our fear of death have been glorious, while others have been destructive, leading to global conflicts and genocide. Looking forward, Mortals hypothesises that worse could be to come: our unconscious dread of death has led to rampant consumerism and overpopulation, driving the global warming and pandemic crises that now threaten our very existence. In a terrible irony, Homo sapiens may ultimately be destroyed by our knowledge of our own mortality. A fascinating tour of our species' attempts across millennia to come to terms with mortality, Mortals offers a stunning glimpse into what our fear of death means for our future. A must read.
