The Arabic Classroom Mbaye Lo, 2019-04-12 The Arabic Classroom is a multicontributor work for trainee and in service teachers of Arabic as a foreign language. Collected here is recent scholarly work and also critical writing from Arabic instructors, Arabists, and language experts to examine the status of the teaching and learning of Arabic in the modern classroom. The book stresses the inseparability of the parameters of contexts, texts, and learners in the effective Arabic classroom and investigates their role in enhancing the experience of teaching and learning Arabic. The book also provides a regional perspective through global case studies and encourages Arabic experts to search for better models of instruction and best practices beyond the American experience. [A Philosophical Inquiry into Subject English and Creative Writing](#) Oli Belas, 2022-11-18 While engaging with the current political educational climate of England, this book offers a timely contribution to debates around questions of knowledge in relation to education and school-level English by drawing together theories of individual and disciplinary knowledge. The book provides a philosophical conception of knowledge as fundamentally embodied at the level of the individual and a matter of cultural form at the level of shared or common knowledge and an analysis of the implications of this for schooled English. The research draws from various related fields including literary criticism, philosophy of knowledge, and of symbolic form and phenomenology. The book rethinks general notions of knowledge and lays out the problems that exist within knowledge and language systems in education, especially secondary and university levels. This highly relevant and informative book offers an insightful resource for academics, researchers, and postgraduate students in the fields of education studies, educational policy, and politics, philosophy of education, and literature studies. *The Times Index*, 2008 Indexes the Times and its supplements. **Developing Effective 16-19 Teaching Skills** John Butcher, 2004-11-25 Developing Effective 16-19 Teaching Skills aims to enhance the competence of student teachers in secondary schools and FE college as they confront sixteen to nineteen teaching for the first time. The book will also appeal to practising teachers who are looking for a fresh perspective. Full of case studies and questions for reflection, this comprehensive textbook includes chapters on sixteen to nineteen teaching, contextualized effectiveness, defined avoiding preconceptions, sixteen to nineteen planning for differentiation, subject expertise, assessment, sixteen to nineteen active learning in the sixteen to nineteen classroom, the importance of the tutor role in sixteen to nineteen teaching, learning with colleagues, developing a career in sixteen to nineteen teaching, emphasizing the minimal attention given to sixteen to nineteen teaching in the Standards for Secondary QTS. The book is organized to prompt trainee teachers to draw more fully on sixteen to nineteen evidence and enhance their competence and confidence in teaching that phase.
