*Constitutional Interpretation* Sujit Choudhry,Catherine O'Regan,Carlos Bernal-Pulido,2025-12-16 This insightful Handbook argues that constitutional interpretation has two core elements constitutional text and constitutional context Through a combination of thematic chapters and country specific case studies the Handbook analyses commitments found in preambles epilogues and other constitutional elements as well as the overall constitutional structure      Constitutional Adjudication in Africa Charles M Fombad,2017-09-01 Since the 1990 wave of constitutional reforms in Africa the role of constitutional courts or courts exercising the power to interpret and apply constitutions have become a critical aspect to the on going process of constitutional construction reconstruction and maintenance These developments appear at least from the texts of the revised or new constitutions to have resulted in fundamental changes in the nature and role of courts exercising jurisdiction in constitutional matters The chapters in this second volume of the Stellenbosch Handbooks in African Constitutional Law series are the first to undertake a critical and comparative examination of the interplay of the diverse forms of constitutional review models on the continent Comparative analysis is particularly important given the fact that over the last two decades constitutional courts in Africa have been asked to decide a litany of hotly contested and often sensitive disputes of a social political and economic nature As the list of areas in which these courts have intervened has grown so too have their powers actual or potential By identifying and examining the different models of constitutional review adopted these chapters consider the extent to which these courts are contributing to enhancing constitutionalism and respect for the rule of law on the continent The chapters show how the long standing negative image of African courts is slowly changing The courts have in responded in different ways to the variety of constraints incentives and opportunities that have been provided by the constitutional reforms of the last two decades to act as the bulwark against authoritarianism and this provides a rich field for analysis filling an important gap in the literature of contemporary comparative constitutional adjudication This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations

**Settlements** Adrian Di Giovanni,Luciana Bercovich,2025-06-30 This book investigates grassroots community led justice strategies known as legal empowerment being used to promote the human rights of people living in informal settlements in the Global South Residents of informal settlements also known as slums or favelas encounter a complex array of human rights violations from systemic discrimination by public officials to threats to physical security from forced evictions or arbitrary arrests to a lack of access to basic services such as housing water sanitation and education This book shows how grassroots justice organizations around the world are working with residents to defend their rights and secure more dignified

living conditions Drawing on original empirical research across 10 countries in Africa Asia and Latin America the book demonstrates how legal empowerment can put residents at the centre of holistic approaches to urban development and confront exclusionary and undemocratic systems of governance The book encompasses practical recommendations and strategies such as rights based approaches to informality participation community mobilization and litigation Bridging the gaps between the law on the books and the harsh realities of informality on the ground this book will be an important read for researchers practitioners and policymakers working in realms of social and economic rights access to justice and urban poverty and development

**The Protection of Economic, Social and Cultural Rights in Africa** Danwood Mzikenge Chirwa, Lilian Chenwi, 2016-10-20 The Protection of Economic Social and Cultural Rights in Africa critiques the three main models of constitutionally protecting economic social and cultural rights in Africa direct indirect and hybrid models It examines the choices that states have made how the models have worked whether they have been tested in litigation and the jurisprudence that has arisen The book analyses the protection of the economic social and cultural rights in a range of African countries Angola Cameroon Ethiopia Ghana Kenya Mozambique Nigeria Senegal South Africa and Uganda Leading legal academics explore how these rights feature at the regional and sub regional levels as well as the link between domestic and international mechanisms of enforcement

The Problem of Money Bernhard Bierlich, 2007-12-01 Based on long term medical anthropological research in northern Ghana the author analyses issues of health and healing of gender and of the control and use of money in a changing rural African setting He describes the culture of medical pluralism so typical for neo colonial states and people s choices of traditional local medicine plants and sacrifices Islamic medicine charms and various written solutions and modern therapy biomedicine in particular western pharmaceuticals He concludes that the rural urban divide is a fiction that demarcations between these areas are frequently blurred linked by a postcolonial capitalist discourse of local markets regional economies and national structures which frequently emerge in local African settings but often originate in global and multinational markets
