The Anthems of East-Central Europe Csaba G. Kiss,2023-04-21 This book juxtaposes national anthems of thirteen countries from central Europe with the aim of initiating a dialogue among the peoples of East Central Europe We tend to perceive a national anthem as a particular mirror involuntarily reflecting an image of nation and homeland but how does it represent the community for whom it sounds To answer this question the book deploys a comparative approach anthems are presented in the light of those of neighbouring countries with the conviction that one of the key features of true Europeanness is good relations between neighbours The development trajectory of the modern nation is the context in which the book examines the history of such national symbols alongside the symbolic content of poetry images of the homeland and nation depicted in the anthems as well as the sometimes longer processes which led to the adoption and legal codification of current state symbols *The Anthems of East Central Europe* will be a great resource for researchers journalists college and university students politicians trying to impact emigres from this region and emigres themselves
