

## Build a UserForm for Excel

### Introduction

A UserForm is a custom-built dialog box that you build using the Visual Basic Editor. Using the techniques shown in Excel you can use the Visual Basic Editor to create a UserForm in any of the Microsoft Office programs that support VBA.

With a UserForm you can create a user-friendly interface for your spreadsheet or document, making data entry more comfortable for your end users. For the user:

### About the Project

This document shows you how to build a simple UserForm for entering personal addresses data set up in a spreadsheet in Excel. The work is divided into two main sections: building the form itself and then writing the VBA code to make it work. The finished UserForm will look something like this (Fig. 2).

Fig. 2. The finished UserForm project

**NOTE:** The screenshots here show how things look in Excel 2003 running on Windows XP. If you are working on an different version of Excel, or Windows, the appearance and layout might differ, but all the techniques explained here will be exactly the same.

### Build the Form

Open Excel and open the Visual Basic Editor (Visual Basic IDE). You will need to see both the Project Explorer and the Properties Window, so if they are not visible open them from the View menu.

**NOTE:** When building your UserForm try to avoid double-clicking on anything. Unlike the spreadsheet that you do use, double-clicking anywhere on the form's code window, or anywhere that accidentally clicks, does not close windows by clicking on Close buttons, or switch back to the spreadsheet design window with the spreadsheet shortcut (Ctrl+Alt+F10).

### Insert a New UserForm

Make sure that the correct workbook (e.g. Microsoft Excel) is selected in the Project Explorer then open the **Insert** menu and choose **UserForm**. When you do this a new, blank UserForm appears in the code window of the Visual Basic Editor and a corresponding entry appears in the Project Explorer (Fig. 2). The Project Explorer shows a new folder named **Forms** containing the new UserForm which has been given the name **UserForm1**.

# Build A Userform For Excel Fontstuff Ltd

**N Noddings**

**Build A Userform For Excel Fontstuff Ltd:**

As recognized, adventure as skillfully as experience just about lesson, amusement, as competently as treaty can be gotten by just checking out a book **Build A Userform For Excel Fontstuff Ltd** also it is not directly done, you could undertake even more all but this life, something like the world.

We present you this proper as competently as simple quirk to acquire those all. We come up with the money for Build A Userform For Excel Fontstuff Ltd and numerous ebook collections from fictions to scientific research in any way. in the middle of them is this Build A Userform For Excel Fontstuff Ltd that can be your partner.
