are playing for profit at any cost aided by governments who let them get away with it With his eye trained on solutions within our grasp Gillespie also celebrates success stories from around the world driven by remarkable citizens social movements policy makers and politicians These case studies offer hope that by organizing sharing and learning we can build a better food future for ourselves and for our children Both unflinching expos and revolutionary call to arms Food Fight shines a light inside the black box of politics and power before mapping a way toward a new system that gives us hope for a future of global health and justice
