**Shakespeare's Hamlet** John Hort, Leela Hort, 1999 *New Directions in Early Modern English Drama* Aidan Norrie, Mark Houlihan, 2020-07-06 This collection examines some of the people, places and plays at the edge of early modern English drama Recent scholarship has begun to think more critically about the edge particularly in relation to the canon and canonicity This book demonstrates that the people and concepts long seen as on the edge of early modern English drama made vital contributions both within the fictive worlds of early modern plays and without in the real worlds of playwrights, theaters and audiences The book engages with topics such as child actors, alterity, sexuality, foreignness and locality to acknowledge and extend the rich sense of playmaking and all its ancillary activities that have emerged over the last decade The essays by a global team of scholars bring to life people and practices that flourished on the edge manifesting their importance to both early modern audiences and to current readers and performers

**Selfhood on the Early Modern English Stage** Pauline Blanc, 2009-10-02 The twelve essays in *Selfhood on the Early Modern English Stage* analyse the influences that shaped the fictional constructs that inhabited the drama of the early modern period The contributors, all specialists in the field working in France and England, offer a wide spectrum of views and discuss a variety of dramatic texts ranging from late medieval cycle plays and interludes of the Tudor period to plays by Marlowe, Shakespeare, Tourneur and Jonson The early modern stage self emerges out of this collection as the site of a rich confluence of discursive and historical forces existing beyond the theatre itself Three essays in the first section reveal how abstract figures like *Mundus* and *Mankind* gradually became endowed with personal motives and personalizing traits which brought into existence stage beings with a capacity for emotion In the second section three essays deal with specific cultural factors that influenced the representation of selfhood in John Lyly's *Alexander*, in Marlowe's *Tamburlaine* and in a selection of Stuart court masques presented at Whitehall The third section offers new insights into the composition of *Hamlet* as a dramatized personality the fourth investigates the way in which the poet-playwright's autobiographical impulses may have helped in the construction of early modern stage selves the final fifth section explores the kaleidoscopic sources of the royal protagonists in Rowley's *When You See Me You Know Me* and Shakespeare's *Richard III* This collection of essays seeks to add a further contribution

to the growing body of criticism that investigates the multi faceted multi layered construction of early modern subjectivity

**Ecocriticism and Early Modern English Literature** Todd A. Borlik,2011-05-11 In this timely new study Borlik reveals the surprisingly rich potential for the emergent green criticism to yield fresh insights into early modern English literature Deftly avoiding the anachronistic casting of sixteenth and seventeenth century authors as modern environmentalists he argues that environmental issues such as nature s personhood deforestation energy use air quality climate change and animal sentience are formative concerns in many early modern texts The readings infuse a new urgency in familiar works by Shakespeare Sidney Spenser Marlowe Raleigh Jonson Donne and Milton At the same time the book forecasts how ecocriticism will bolster the reputation of less canonical authors like Drayton Wroth Bruno Gascoigne and Cavendish Its chapters trace provocative affinities between topics such as Pythagorean ecology and the Gaia hypothesis Ovidian tropes and green phenomenology the disenchantment of Nature and the Little Ice Age and early modern pastoral poetry and modern environmental ethics It also examines the ecological onus of Renaissance poetics while showcasing how the Elizabethans sense of a sophisticated interplay between nature and art can provide a precedent for ecocriticism s current understanding of the relationship between nature and culture as mutually constructive Situating plays and poems alongside an eclectic array of secondary sources including herbals forestry laws husbandry manuals almanacs and philosophical treatises on politics and ethics Borlik demonstrates that Elizabethan and Jacobean authors were very much aware of and concerned about the impact of human beings on their natural surroundings *Confession and Memory in Early Modern English Literature* Paul D.

Stegner,2016-01-26 This is the first study to consider the relationship between private confessional rituals and memory across a range of early modern writers including Edmund Spenser Christopher Marlowe William Shakespeare and Robert Southwell **Hamlet Translated Into Modern English** William Shakespeare,2019-07-17 Now You Too Can Understand Shakespeare Modern English side by side with original text includes study notes and stage directions For the first time collected in one volume Shakespeare s original play side by side with an accurate line by line modern English translation along with stage directions study notes and historical facts to aid understanding The original innuendos political satire puns and bawdy humour are retained bringing the work to life for scholars students actors prepping for a performance or lovers of the work to enjoy today without flicking back and forth for lengthy explanations Additional study notes by former QI researcher and translation verified by historical consultant to the BBC and major movie companies As an eight year old boy SJ Hills read the first part of a simplified version of Macbeth in a children s comic He rushed to the library to finish the story only to learn he couldn t understand the original work So began a lifelong dream of making Shakespeare understandable for all down the the smallest detail enlisting the help of the world s most renowned researchers from BBC TV series QI to aid him Please note this work may not be suitable for readers under 12 years old due to bawdy innuendo See also Macbeth Translated Romeo and Juliet Translated and A Midsummer Night s Dream by SJ Hills **The Return of Theory in Early**

*Portraits in Early Modern English Drama* Emanuel Stelzer, 2019-05-14 Portraits in Early Modern English Drama studies the complex web of interconnections that grows out of the presentation of portraits as props in early modern English drama Emanuel Stelzer considers this theory from the Elizabethan age up to the closing of the theatres This book examines how the dramatic text and the subjectivities of the dramatis personae are shaped and changed through the process of observation and interpretation of pictures in the dramatic actions and dialogues Unlike any previous study it confronts when a portrait is clearly meant not to be a miniature This also has bearings on the effect of the picture on the audience and in terms of genre expectation Two important questions are interrogated in the book What were the price and value of these portraits and What were the strategies deployed by the playing companies to show women's portraits in a theatre without actresses This book will be of interest to different areas of research dealing with the history of drama and literature material and visual culture studies art history gender studies and performance studies

**Poison on the early modern English stage** Lisa Hopkins, Bill Angus, 2023-08-29 Many early modern plays use poison most famously Hamlet where the murder of Old Hamlet showcases the range of issues poison mobilises Its orchard setting is one of a number of sinister uses of plants which comment on both the loss of horticultural knowledge resulting from the Dissolution of the Monasteries and also the many new arrivals in English gardens through travel trade and attempts at colonisation The fact that Old Hamlet was asleep reflects unease about soporifics troubling the distinction between sleep and death pouring poison into the ear smuggles in the contemporary fear of informers and it is difficult to prove This book explores poisoning in early modern plays the legal and epistemological issues it raises and the cultural work it performs which includes questions related to race religion nationality gender and humans relationship to the environment
