

Heresy and Authority in Medieval Europe

Edited,
with an Introduction, by EDWARD PETERS

Heresy And Authority In Medieval Europe

John C. Cavadini

Heresy And Authority In Medieval Europe:

Heresy and Authority in Medieval Europe Edward Peters, 1980 Throughout the Middle Ages and early modern Europe theological uniformity was synonymous with social cohesion in societies that regarded themselves as bound together at their most fundamental levels by a religion To maintain a belief in opposition to the orthodoxy was to set oneself in opposition not merely to church and state but to a whole culture in all of its manifestations From the eleventh century to the fifteenth however dissenting movements appeared with greater frequency attracted more followers acquired philosophical as well as theological dimensions and occupied more and more the time and the minds of religious and civil authorities In the perception of dissent and in the steps taken to deal with it lies the history of medieval heresy and the force it exerted on religious social and political communities long after the Middle Ages In this volume Edward Peters makes available the most compact and wide ranging collection of source materials in translation on medieval orthodoxy and heterodoxy in social context *Heresy and authority in medieval Europe* Edward Peters, 1980 *HERESY AND AUTHORITY IN MEDIEVAL*

EUROPE : DOCUMENTS IN TRANSL. , 1980 **Heresy in the Middle Ages** Andrea Janelle Dickens, 2024 Medieval Christianity evolved economic intellectual and theological structures to consolidate authority and test orthodoxy This book investigates the relationships between the medieval church and the growing number of heretical groups highlighting where they were motivated by overlapping concerns such as a zeal to live the apostolic life *Medieval Heresy* Malcolm D. Lambert, 1977 This book is a working synthesis of the state of research on popular heretical movements in Western Europe from the eighth to the fifteenth centuries intended both for the undergraduate reader who needs a one volume introduction and for the scholar working in one portion of this vast field who wants a handbook for quick reference on the subject as a whole Popular has been taken to mean movements with a substantial following amongst laymen Preface **The**

Construction of Textual Authority in German Literature of the Medieval and Early Modern Periods James F. Poag, Claire Baldwin, 2001 Construction of Textual Authority in German Literature of the Medieval and Early Modern Periods

A History of Medieval Heresy and Inquisition Jennifer Kolpacoff Deane, 2022-09-13 This concise and balanced survey of heresy and inquisition in the Middle Ages examines the dynamic interplay between competing medieval notions of Christian observance tracing the escalating confrontations between piety reform dissent and Church authority between 1100 and 1500 Jennifer Kolpacoff Deane explores the diverse regional and cultural settings in which key disputes over scripture sacraments and spiritual hierarchies erupted events increasingly shaped by new ecclesiastical ideas and inquisitorial procedures Incorporating recent research and debates in the field her analysis brings to life a compelling issue that profoundly influenced the medieval world *Europe and the Middle Ages* Edward Peters, 2004 For one two semester undergraduate courses in Medieval History This comprehensive well balanced historical survey of Medieval Europe from Roman imperial provinces to the Renaissance covers all aspects of the history political literary religious intellectual etc with a focus on social

and political themes It presents a complete picture of the complex process by which an ecumenical civilization that once ringed the basin of the Mediterranean Sea evolved into three other distinctive civilizations Latin Europe Greek Eastern Europe and Asia Minor and Islam This text differs from others on the subject in that it attempts to abolish traditional clichés regarding the Middle Ages and promotes critical thinking about our own time and society *Langland, Kempe, Chaucer, and the "Makynge" of Authority* Danielle Cunniff Plumer, 1998 *Dissent and Order in the Middle Ages* Jeffrey Burton Russell, 1992 The study of the conflict between religious orthodoxy and heresy in the Middle Ages has long been a controversial field Though the sectarian differences of the past have faded in intensity the varieties of academic correctness that today inform historical studies are quite likely to give rise to a number of interpretations sometimes providing more information about the sympathies of contemporary historians than the beliefs feelings and actions of Medieval people In this book Jeffrey Burton Russell provides a fresh overview of the subject from the Council of Chalcedon 451 A D to the eve of the Protestant Reformation The fruit of many years of thought and scholarship *Dissent and Order in the Middle Ages* is a concise introduction to the full range of religious and social phenomena encompassed by the book's title While tracing the intellectual battles that raged between the champions of orthodoxy and the partisans of dissent Russell grounds these conflicts which often seem rather recondite to the modern reader in the evolving social context of Medieval Europe In addition to discussing conflicts within Christianity Russell sheds new light on such vexing topics as the origin of antisemitism and the persecution of alleged witches More than just an overview Russell's study is also an original interpretation of a complex subject Russell sees the conflict between dissent and order not as a war of binary opposites but rather as an ongoing dialectic a creative tension that despite the excesses it entailed on both sides was essential to the development of Christianity Without this creative tension Russell argues Christianity might well have stagnated and possibly died *Dissent and Order* then are perhaps best seen as symbiotically joined aspects of a single living healthy organism *Dissent and Order in the Middle Ages* will appeal to and challenge all readers interested in European history from beginning students to seasoned scholars as well as those concerned with Christianity's past and future *Literary Beginnings in the European Middle Ages* Mark Chinca, Christopher Young, 2022-08-25 How did new literatures begin in the Middle Ages and what does it mean to ask about such beginnings These are the questions this volume pursues across the regions and languages of medieval Europe from Iceland Scandinavia and Iberia through Irish Welsh English French Dutch Occitan German Italian Czech and Croatian to Medieval Greek and the East Slavonic of early Rus Focusing on vernacular scripted cultures and their complicated relationships with the established literary cultures of Latin Greek and Church Slavonic the volume's contributors describe the processes of emergence consolidation and institutionalization that make it possible to speak of a literary tradition in any given language Moreover by concentrating on beginnings the volume avoids the pitfalls of viewing earlier phenomena through the lens of later national developments the result is a heightened sense of the historical contingency of categories of

language literature and territory in the space we call Europe

Heresy in the Middle Ages Andrea Janelle

Dickens,2024-08-06 From the high Middle Ages to the late Middle Ages heresy evolved from individual outbreaks to more widespread movements Accused heretics were often motivated by the same concerns as movements that found acceptance within the church such as a zeal to live the apostolic life This book explores the growing sense of Christian identity as it developed in agreement with and opposition to closely affiliated groups in the Middle Ages It documents the development of the idea of heresy and it listens to the voices that shaped official and unofficial theologies Developing manuals of heresy and elaborate trial procedures spanning both canon law and secular justice the church defined religion and religious life more tightly and regulated praxis Considering nine heretical movements of the Middle Ages starting with the Petrobrusians and finally ending with the Hussites and late medieval witchcraft this book examines the shifting line constructed between heresy and orthodoxy and how the saint and the heretic were often responding in similar ways to the same motivations Through its investigations this book considers the reasons for inclusion and exclusion of these various groups and the impact of the development of this heresy routing apparatus on medieval Christianity s self identity

The Penitents' Treasury Robert

W. Shaffern,2007 The granting of indulgences by the Catholic Church has long been infamous as one of the grounds for Martin Luther s revolt from Christianity in the sixteenth century Modern scholars have usually characterized the medieval practice as a defective one In *The Penitents Treasury* historian Robert W Shaffern debunks this argument through a reexamination of indulgences that shows how their alleged evils have been exaggerated throughout history This provocative volume a necessary read for anyone interested in medieval history and the history of religion calls for much rethinking about the state of the church on the eve of the Reformation

The Oxford Dictionary of the Middle Ages Robert E.

Bjork,2010-06-24 *The Oxford Dictionary of the Middle Ages* is an outstanding resource for anyone studying or with an interest in all aspects of European history society religion and culture from 500 to 1500 Its 5 000 plus entries written by over 800 international scholars provide uniquely broad balanced and authoritative coverage of the period

The History of Medieval Europe Lynn Thorndike,1917

Christ Among Them Edoardo Mungiello,2008

This essay newly interprets the rise of the individual within the Italian peninsula between 1180 and 1300 It follows the historical events and the cultural products that define the period keeping in mind that the creators were conscious of a tangible real Christ in their midst For it is the time when Jesus was known to be in the Eucharist as a carnal potentiality as well as a time when Europeans on Crusade had reached his temporal abode As Christ as neighbor became a consistent idea the relationship towards that idea became one of accommodation making subsequent worship a form of individualism The later Renaissance was as much a specific reaction to a particular understanding of Christology within the cultural sphere as it was a reawakening of Classical ideals through a new paradigm of European selfhood outside of Christianity Understood in this way the Incarnation helped to produce an action based Christianity amenable to the needs of the Roman Church The later insistence upon text and notions of personal

conscience that identifies the Reformation can now be seen as a true end to the Renaissance Christian praxis which began with the excitement over Christ among them **Capital Punishment and Roman Catholic Moral Tradition** Eugene Christian Brugger, 2003 What is the Catholic Church's position on the death penalty How and why has it changed through the ages Tracing the history of this thorny moral issue Brugger offers a detailed exegesis of the Church's account of its morality as formulated in the Catechism of the Catholic Church *The Last Christology of the West* John C. Cavadini, 1993 Describes a controversial notion that Jesus was adopted by God at the time of his baptism which rose in Spain during the Moorish occupation Focuses on the writings of the main players Migetius Beatus Felix and Alcuin Most of the quotations are given only in English others only in Latin Annotation from Book news Portland Oregon booknews com **The Religious Fringe** Richard G. Kyle, 1993 America the land of the free has from its earliest days spawned and nurtured a wide range of new or alternative religions Often veering from traditional roots or seeking to find their way back toward the center these religious fringe groups have a fascinating story long overlooked in many treatments of American history Richard Kyle here traces the origins and development of alternative religions showing their influence on American culture [The Earliest Irish and English Bookarts](#) Robert David Stevick, 1994

Getting the books **Heresy And Authority In Medieval Europe** now is not type of inspiring means.
