HISTORICAL FOUNDATION OF EDUCATION

Historical Foundation Of Education

I. N. Thut

Historical Foundation Of Education:

Historical Foundations of Education Janice B. Tehie,2007 Educators are better equipped to shape education today if they understand not only the historical context of education and its influence on education today but also the contextual framework in which education developed over time This history of education text gives the educator a unique and comprehensive view of the development of education from ancient times to the present by examining the social political economic and religious contexts in which education developed Readers will come away with a rich understanding of the influence of the past on today s educational landscape

The Story of Education I. N. Thut,1957 OVERVIEW OF HISTORY PHILOSOPHY AND THEORY OF TEACHING

Historical Foundations of Educational Psychology John A. Glover,Royce R. Ronning,2013-11-11 This volume represents a beginning effort to compile a history of educational psychology The project began innocuously enough several years ago when we decided to add mon material about the history of educational psychology to the undergraduate course we were teaching What seemed like a simple task became very complex as we searched in vain for a volume dealing with the topic We ended up drawing on various histories of psychology that devoted anywhere from a few paragraphs to several pages to the topic and on a very few articles addressing the issue We were startled frankly by the apparent lack of interest in the history of our field and decided to attempt to compile a history ourselves As is the case with any edited volume the contributing authors deserve credit for its positive features They uniformly made every effort asked of them and taught us much about educational psychology Any errors or omissions are our responsibility alone

The Theoretical Foundations of Education University of Illinois (Urbana-Champaign campus). College of Education. Division of Historical, Comparative, Philosophical, and Social Foundations of Education,1951

Historical and Philosophical Foundations of Education Gerald Lee Gutek,1997 Structured around the biographies of educators philosophers and world figures this book combines both a historical overview of world education and a balanced treatment of educational philosophies It emphasizes the importance of contexts and situations in the development of educational ideas

The History and Social Foundations of American Education John D. Pulliam,James J. Van Patten,2013 For courses on the Historical Foundations of Education In a detailed and balanced manner this highly popular text addresses the social historical and philosophical foundations of education from the dominance of Puritans to modern times and the impact on American society both yesterday and today In the same accessible format of earlier editions the tenth edition provides readers with a solid overview of the social historical and philosophical foundations of education a compact treatment of the basic tenets and theories that underlie educational practice including timelines for major watershed events that have shaped the nation s educational system and quotes from leading authors of the period which introduce each chapter and situate the concepts to follow The only guide on the history of American education your students will need this textbook serves as a quick reference to the most important persons dates

events and movements that shaped the nation's system of education

An Historical Introduction to American

Education Gerald L. Gutek, 2012-09-18 Gutek's classic volume on the history of American education has been thoroughly revised and updated to provide a twenty-first century perspective on the development of American educational institutions. Like earlier editions, the well-researched Third Edition employs a topical approach to examine the evolution of key institutions like the common school and the high school, as well as significant movements like progressive education, racial desegregation, and multiculturalism. Primary source readings enhance and reinforce chapter content and feature new writings from Benjamin Rush, Horace Mann, Maria Montessori, W. E. B. Du Bois, John Dewey, and Jane Addams. Two new chapters add depth to this comprehensive, richly illustrated work: Immigration, Multiculturalism, and Education examines the response of public schools to the education of immigrant children in the context of America's industrialization and urbanization. This compelling addition also looks at the changing demographics of immigration and discusses the experiences and contributions of Hispanic Americans and Asian Americans. Progressive Education and John Dewey explores the origins of progressive education, the philosophies of John Dewey and other leading progressive educators, and this movement's ongoing influence in American classrooms. The Third Edition's topical organization lends itself to multiple uses in the classroom. Each chapter provides the historical foundation for the study of a contemporary topic in education, including the organization and structure of schools, the philosophy of education, early childhood education, curriculum and instruction, multicultural and bilingual education, and educational policy.

Historical Foundations of Education

Theodore Michael Christou, 2023-03-23 This volume considers history as a foundational discipline in education. It shows how history is a means for exploring what it means to be human by considering those stories, sources, forces, and contexts that shape the way we construct narratives. History is more than content; no matter what we might recall from our experiences in schools, the volume shows how studying history is one means of uncovering why institutions, beliefs, policies, and practices are as they are. Educational structures are like all things mutable. History empowers the individual to be an actor in this process of change and to act judiciously. About the Educational Foundations series: Education as an academic field, taught at universities around the world, emerged from a range of older foundational disciplines. The Educational Foundations series comprises six volumes, each covering one of the foundational disciplines of philosophy, history, sociology, policy studies, economics, and law. This is the first reference work to provide an authoritative and up-to-date account of all six disciplines, showing how each field's ideas, methods, theories, and approaches can contribute to research and practice in education today. The six volumes cover the same set of key topics within education, which also form the chapter titles: Mapping the Field, Purposes of Education, Curriculum, Schools and Education Systems, Learning and Human Development, Teaching and Teacher Education, Assessment and Evaluation. This structure allows readers to study the volumes in isolation by discipline or laterally by topic and facilitates a comparative, thematic reading of chapters across the volumes. Throughout the series, attention is paid to how the disciplines comprising

the educational foundations speak to social justice concerns such as gender and racial equality

Historical Foundation of Education A. K. Malik, 2008

Dotts, 2018-11-29 This educational foundations book offers a comprehensive overview of American education history and a variety of classical Enlightenment and contemporary educational philosophers While Educational Foundations includes a history of American education it also looks at numerous policies constitutional law cases events and political religious and social conflicts for students to consider while learning their subject matter The text is divided into two sections the first is a look at a broad array of philosophical influences from the Western canon while the second is an exploration of the history of American education focusing on a few specific eras With strong and helpful pedagogical features and resources such as class activities suggested files chapter objectives and sidebar questions this textbook is an excellent resource for students It is useful for undergraduate and graduate courses in educational foundations
