Feeding the Future Nicole Negowetti, 2026-01-06 A radical reframing of the current global food system to address injustices and existential threats The global food system stands at a critical juncture Food production is among the largest causes of global environmental change and accelerating climate change The resulting loss of biodiversity and the harmful effects on water and land use have put human life at risk To date proposed solutions have downplayed the stakes and ignored the complex social justice and ecological dimensions of these

challenges Feeding the Future offers a radical reframing of how humanity can address the harmful effects and injustices of the current global food system Rather than pursuing an impossible transformation of the entire system Nicole Negowetti reveals how communities worldwide are transcending it through innovative place based solutions Through vivid storytelling and rigorous analysis she challenges conventional approaches to solving food system problems that are being advanced by agribusiness the food industry policymakers and many nongovernmental organizations She shares the stories of visionary changemakers and communities around the world that are applying innovative unique strategies to bring depleted agricultural lands back to life revitalize urban neighborhoods establish new economic models and create thriving regional food systems For policymakers activists scholars and anyone concerned about the connections between food systems people s health and the planet s fate Feeding the Future offers practical pathways forward By showing how local communities are already building successful alternatives to industrial agriculture Negowetti offers a compelling blueprint for transforming the existing global food system
