**The Personal Trainer'S Legal Bible** Gary W. Pitts, 2014-01-07 PERSONAL TRAINERS are not just fitness professionals they could be the saviours of the global health care system life changers As pioneers in this budding field in the health and wellness industry trainers face misinformation and myths about the fitness industry Whats more due to negative portrayal in the media the common perception of personal trainers is less than stellar This situation coupled with the relative lack of regulation means that there are many legal issues that you must be aware of in order to stay safe in your day today practice As is the case for any practitioner of a health related profession you must be aware of the legal ramifications of your decisions and advice But the legal education provided to personal trainers is virtually nonexistent In this guidebook author Gary Pitts a master strength coach and Canadas premier fitness lawyer provides the knowledge you need for your practice Following the principles of MISS make it simple stupid Gary has compiled information on the entire spectrum of fitness specific legal issues most of which are largely unknown or misunderstood by even the most seasoned veterans in the personal training industry If youre serious about your personal training career explores these important issues and start building your protective legal strategies now

**Optimal Physical Activity across the Lifespan for People of All Abilities** Ronald F. Zernicke , David Arthur Hart, Humans evolved to be mobile within the boundary conditions of Earth and many biological and physiologic systems depend on mechanical loading to maintain integrity during growth and maturation during skeletal maturity and during the aging process These systems subscribe to the use it or lose it principle and thus require continual use to maintain integrity Given that premise considerable basic and clinical research efforts have been directed at optimizing the effectiveness and positive impact of exercise on sports performance and the well being of those with intact systems However those with disabilities or compromised abilities also benefit from exercise protocols and there exists a need to focus attention on these populations as well Given the myriad of biological and physiological systems that benefit from exercise and mechanical loading there is a need for all humans of varying abilities to not only maintain the integrity of their health but to attempt to optimize it recognizing that optimizing each person s health across the stages of the life cycle may require

different exercise protocols dependent on stage of life sex genetics and other individualized variables For those with physical disabilities embracing and maintaining such exercise protocols may be challenging but expanded research translation of findings and integration of the outcomes into everyday life to enhance the health and well being of this significant population are needed going forward
