**George C. Williams and Evolutionary Literacy** Michael P. Cohen, 2022-09-28 In this book a case study of a humanistic reading of an essential evolutionary theorist George C Williams May 12 1926 September 8 2010 the author

contends that certain classic works of evolutionary theory and history are the most important nature writing of recent times. What it means to be scientifically literate is essential for humanistic scholars who must ground themselves with literary reading of scientific texts. As the most influential American evolutionary theorist of the second half of the twentieth century, Williams masters critique frames questions about adaptation and natural selection and answers in a plain aphoristic writing style. Williams aims for parsimony to recognize adaptation at the level necessitated by the facts and no higher through a minimalist writing style. This voice articulates a powerful process that operates at very low levels by blind and selfish chance at the expense of its designed products using purely trial and error.

**Why We Get Sick** Randolph M. Nesse, MD, George C. Williams, 1996-01-30. The next time you get sick consider this before picking up the aspirin your body may be doing exactly what it is supposed to. In this ground breaking book two pioneers of the science of Darwinian medicine argue that illness as well as the factors that predispose us toward it are subject to the same laws of natural selection that otherwise make our bodies such miracles of design. Among the concerns they raise: When may a fever be beneficial? Why do pregnant women get morning sickness? How do certain viruses manipulate their hosts into infecting others? What evolutionary factors may be responsible for depression and panic disorder? Deftly summarizing research on disorders ranging from allergies to Alzheimer's and from cancer to Huntington's chorea, **Why We Get Sick** answers these questions and more. The result is a book that will revolutionize our attitudes toward illness and will intrigue and instruct lay person and medical practitioners alike. *The Current Issue*, 1908.
