Student Guide to Research in the Digital Age Leslie Stebbins, 2005-12-30 One of the most perplexing aspects of research today is what to do when there is too much information on a topic. What then of the librarian charged with teaching new generations to appreciate the search for intellectual wheat especially when the chaff has greater appeal? The key suggests Leslie Stebbins is to impress upon students the importance of good filtering instincts and careful management of search results. At the same time it is equally essential to impress upon them the particular challenges and controversies that accompany research in a digital environment. Chapter one provides a step by step introduction to both research and critical evaluation that can be followed for any assignment. Chapters two through seven focus on specific types of information resources when to use them where to find them and how to evaluate them. Chapter eight offers guidance on how to develop a note taking system cite sources avoid plagiarism and organize references. Students and librarians alike will benefit from Stebbin's suggestions strategies and straightforward examples.
