*Binding Media* Élika Ortega, 2025-03-04 Far from causing the death of the book the publishing industry's adoption of digital technologies has generated a multitude of new works that push the boundaries of literature and its presentation In this fascinating new work like Ortega proposes the notion of binding media a practice where authors and publishers fasten together a codex and electronic or digital media to create literary works in the form of hybrid print digital objects Examining more than a hundred literary works from across the Americas Ortega argues that binding media are not simply experimentations but a unique contemporary form of the book that effectively challenges conventional regional and linguistic boundaries Furthermore the book demonstrates that binding media have remained marginal in the publishing industry due to technological imperatives like planned obsolescence and commercial ones like replicability and standardization that run counter to these bespoke literary projects Although many binding media and other hybrid publishing initiatives have perished they've left behind a wealth of material collecting and tracing the residues of these foreshortened projects Ortega builds a fascinating history of hybrid publishing Ultimately this essential account of contemporary book history highlights the way binding media help illuminate processes of cultural hybridization that have been instigated by the expediency of globalized digital technologies and transnational dynamics

, 1927 *Samuel Richardson's Fictions of Gender* Tassie Gwilliam, 1995 In developing a new gender theory for analyzing Samuel Richardson's three major novels Pamela Clarissa and Sir Charles Grandison the author argues that these novels of sexual threat expose sometimes unwillingly the extraordinary labor required to construct and maintain the eighteenth century ideology of gender that apparently natural dream of perfect symmetry between the sexes The instability of that

model is revealed notably in Richardson's fascination with cross gender identification and other instances of transgressive desires. The author demonstrates that these violations of the supposedly unbreachable barriers between masculinity and femininity produce what is most moving and imaginative in Richardson's fiction and create an equally powerful repression in the form of punishment of transgressive characters and desires. She also illustrates through a reading of recurrent fantasies about the composition of bodies especially women's bodies the complex interaction between those fantasies and the construction of masculinity and femininity. The genesis of Richardson's own writing is located in a dynamic reciprocal idea of gender that allows him to see femininity from the inside while retaining the privileges of the masculine viewpoint. The relation between this origin and the novels themselves forms the basis for the discussions of the novels. Each of the three chapters in the book seeks to investigate particular turn of gender construction and a particular mode of the reiterative story of sexual differences. The first chapter on Pamela calls on eighteenth century discourse about opposing ideologies of gender and sexuality to elucidate Richardson's project. The next chapter on Clarissa shifts to a more intricate analysis of fantasies about sex and gender in particular the double reading of masculinity and femininity in the form of masculinity reading itself through the feminine. The final chapter on *The History of Sir Charles Grandison* examines Richardson's attempt to solidify masculinity in the person of the good man.
