Education for Knowing Paul A. Wagner, Frank K. Fair, 2020-10-30 If our goal is Education for Knowing as the title says then we need to be guided by a conception of what knowing is For example we can all agree that there are math facts that students need to learn and we can agree that there are general concepts and laws that students should be acquainted with But is there more involved perhaps something like nurturing in students a desire to probe deeper into the workings of thing Or developing a capacity to explain why things work the way they do Our conceptions of what genuine knowing is serve as guides to what we think the goal of education is and they tell us how to build a student However as it turns out there are multiple conceptions of what knowing truly involves and these conceptions tend to be different for different sets of education stakeholders such as parents and their children school administrators and educational researchers Understanding this diversity of conceptions of knowing will make it easier for representatives of the different stakeholder groups to work together to accomplish the goal of building knowing students

Virtue in the Cave Roslyn Weiss, 2001-05-24 In this radical new interpretation of Plato's *Meno* Roslyn Weiss exposes the farcical nature of the slave boy demonstration and challenges the widely held assumption that the *Meno* introduces Platonic metaphysical and epistemological innovations into an otherwise Socratic dialogue She shows that the *Meno* is intended as a defense not of all inquiry but of moral inquiry alone and that it locates the validity of Socratic method in its ability to arrive not at moral knowledge but at the far more modest moral true belief Through a careful and provocative reading of Plato's *Meno* Weiss identifies serious problems in its orthodox interpretations offering an alternative that is responsive to the dialogue's drama *Virtue in the Cave* will appeal not only to students of ancient philosophy and the classics but also to anyone who is interested in how to live right in a world of moral uncertainty
