Running Home Katie Arnold, 2020-09-08 In the tradition of Wild and H Is for Hawk an Outside magazine writer tells her story of fathers and daughters grief and renewal adventure and obsession and the power of running to change your life NAMED ONE OF THE BEST BOOKS OF THE YEAR BY REAL SIMPLE I m running to forget and to remember For more than a decade Katie Arnold chased adventure around the world reporting on extreme athletes who performed outlandish feats walking high lines a thousand feet off the ground without a harness or running one hundred miles through the night She wrote her stories by living them until eventually life on the thin edge of risk began to seem normal After she married Katie and her husband vowed to raise their daughters to be adventurous too in the mountains and canyons of New Mexico But when her father died of cancer she was forced to confront her own mortality His death was cataclysmic unleashing a perfect storm of grief and anxiety She and her father an enigmatic photographer for National Geographic had always been kindred spirits He introduced her to the outdoors and took her camping and on bicycle trips and down rivers and taught her to find solace and courage in the natural world And it was he who encouraged her to run her first race when she was seven years old Now nearly paralyzed by fear and terrified she was dying too she turned to the thing that had always made her feel most alive running Over the course of three tumultuous years she ran alone through the wilderness logging longer and longer distances first a 50 kilometer ultramarathon then 50 miles then 100 kilometers She ran to heal her grief to outpace her worry that she wouldn't live to raise her own daughters She ran to find strength in her weakness She ran to remember and to forget She ran to live Ultrarunning tests the limits of human endurance over seemingly inhuman distances and as she clocked miles across mesas and mountains Katie learned to tolerate pain and discomfort and face her fears of uncertainty vulnerability and even death itself As she ran she found herself peeling back the layers of her relationship with her father discovering that much of what she thought she knew about him and her own past was wrong Running Home is a memoir about the stories we tell ourselves to make sense of our world the stories that hold us back and the ones that set us free Mesmerizing transcendent and deeply exhilarating it is a book for anyone who has been knocked over by life or feels the pull of something bigger and wilder within themselves A beautiful work of searching remembrance and searing honesty Katie Arnold is as gifted on the page as she is on the trail Running Home will soon join such classics as Born to Run and Ultramarathon Man as quintessential reading of the genre Hampton Sides author of On Desperate Ground and Ghost Soldiers

Cultivating Creativity in Methodology and Research Charlotte Wegener, Ninna Meier, Elina Maslo, 2017-10-27 This book presents a variety of narratives on key elements of academic work from data analysis writing practices and engagement with the field. The authors discuss how elements of academic work and life usually edited out of traditional research papers can elicit important analytical insight. The book reveals how the unplanned, accidental, and even obstructive events that often occur in research life, the detours, can potentially glean important results. The authors introduce the process of writing, sharing, reading, writing as a way to expand the playground of research and inspire a culture in which accountable research methodologies involve adventurousness and an element of uncertainty. Written by scholars from a range of different fields, academic levels, and geographic locations, this unique book will offer significant insight to those from a range of academic fields.

Age, Gender and Sexuality through the Life Course Susan Pickard, 2018-04-19 Age, Gender and Sexuality through the Life Course argues that the gendered structure of temporality defined in the dual sense of everyday time as well as age and stage of life is a key factor underpinning the stalling of the gender revolution. Taking as its central focus the idealised young woman who serves as the mascot of contemporary success, this book demonstrates how the celebration of the Girl is i) representative of social mobility, educational and professional achievement; ii) possesses diligence, docility and emotional intelligence; and iii) displays a reassuring sexuality and youthfulness but is constructed from the outset to have a fleetingly short life span. Pickard undertakes a theoretical and empirical exploration of the contemporary female experience of education, work, motherhood, sexuality, the challenge of having it all. Furthermore, through additional analysis of the transitional reproductive regime from youth into mid life and beyond, this insightful monograph aims to demonstrate how age and time set very clear limits to what is possible and desirable for the female self, yet how the latter factors, also if used reflexively, can provide the key means of resisting and challenging patriarchy. This book is aimed at a broad interdisciplinary audience located in gender studies, age studies, culture studies, sociology and psychology, accessible for advanced undergraduates and beyond.
