Reading Popol Wuj Nathan C. Henne,2020-04-14 Popol Wujis considered one of the oldest books in the Americas Various elements of Popol Wuj have appeared in different written forms over the last two millennia and several parts of Popol Wuj likely coalesced in hieroglyphic book form a few centuries before contact with Europeans Popol Wuj offers a unique interpretation of the Maya world and ways of being from a Maya perspective However that perspective is often occluded since the extant Popol Wuj is likely a copy of a copy of a precontact Indigenous text that has been translated many times since the fifteenth century Reading Popol Wuj offers readers a path to look beyond Western constructions of literature to engage with this text through the philosophical foundation of Maya thought and culture This guide deconstructs various translations to ask readers to break out of the colonial mold in approaching this seminal Maya text Popol Wuj or Popol Vuh in its modern form can be divided thematically into three parts cosmogony the formation of the world tales of the beings who inhabited the Earth before the coming of people and chronicles of different ethnic Maya groups in the Guatemala area Examining thirteen translations of the K'iche' text Henne offers a decolonial framework to read between what translations offer via specific practice exercises for reading studying and teaching Each chapter provides a close reading and analysis of a different critical scene based on a comparison of several translations English and Spanish of a key K'iche' word or phrase in order to uncover important philosophical elements of Maya worldviews that resist precise expression in Indo European languages Charts and passages are frontloaded in each chapter so the reader engages in the comparative process before reading any leading arguments This approach challenges traditional Western reading practices and enables scholars and students to read Popol Wuj and other Indigenous texts from within the worldview that created them

Revealing Rebellion in Abiyala Hannah Burdette,2019-04-09 From the rise of the Pan Maya Movement in Guatemala and the Zapatista uprising in Mexico to the Water and Gas Wars in Bolivia and the Idle No More movement in Canada the turn of the twenty first century has witnessed a notable surge in Indigenous political action as well as an outpouring of texts produced by Native authors and poets Throughout the Americas Abiyala or the Land of Plenitude and Maturity in the Guna language of Panama Indigenous people are raising their voices and reclaiming the right to represent themselves in politics as well as in creative writing Revealing Rebellion in Abiyala explores the intersections between Indigenous literature and social

movements over the past thirty years through the lens of insurgent poetics Author Hannah Burdette is interested in how Indigenous literature and social movements are intertwined and why these phenomena arise almost simultaneously in disparate contexts across the Americas Literature constitutes a key weapon in political struggles as it provides a means to render subjugated knowledge visible and to envision alternatives to modernity and coloniality The surge in Indigenous literature and social movements is arguably one of the most significant occurrences of the twenty first century and yet it remains understudied Revealing Rebellion in Abiyala bridges that gap by using the concept of Abiyala as a powerful starting point for rethinking inter American studies through the lens of Indigenous sovereignty
