Intervention in Mental Health-Substance Use David B. Cooper, 2016-09-19

The Mental Health Substance Use series provides clear guidance for professionals on this complex and increasingly recognized field. It concentrates on the concerns, dilemmas, and concepts that impact on the life and well-being of affected individuals and those close to them and the future direction of practice, education, research, services, intervention, and treatment. Mental health substance use is a complex and varied phenomenon, and this volume stresses an appreciation that interventions that work for one individual or family may prove ineffective for another. It therefore explores the needs of individuals and carers, the nature of the therapeutic relationship, and the theory and application of a variety of interventional techniques. These include group therapy, cognitive-behavioral therapy, CBT, motivational interviewing, MI, brief interventions, and many more. The volumes in this series are designed to challenge concepts and stimulate debate, exploring all aspects of the development in treatment, intervention, and care response, and the adoption of research-led best practice. They are essential reading for mental health and substance use professionals, students, and educators.

Nissen, 2012-02-17 What is a we a collective and how can we use such communal self knowledge to help people This book is about collectivity participation and subjectivity and about the social theories that may help us understand these matters It also seeks to learn from the innovative practices and ideas of a community of social youth workers in Copenhagen between 1987 and 2003 who developed a pedagogy through creating collectives and mobilizing young people as participants The

theoretical and practical traditions are combined in a unique methodology viewing research as a contentious modeling of prototypical practices Through this dialogue it develops an original trans disciplinary critical theory and practice of collective subjectivity for which the ongoing construction and overcoming of common sense or ideology is central It also points to ways of relating discourse with agency and fertilizing insights from interactionism and ideology theories in a cultural historical framework
