- ↳ a connected system of buildings, roads and water and communication networks that allow people to meet their needs.
 - ↳ can be simple or complex:

Site → Physical space that a settlement occupies

situation → relationship between the settlement and its surrounding environment (compared to something else around it.)

Wet point settlement: close to a supply of water. occurs in dry areas where water may be scarce.

Harbors: sheltered sea inlets allow / provide suitable sites for fishing and trading points.

Resources: developed close to where natural resources could be found, such as trees and fertile soil. Resources provide food, building materials and fuel.

Relief: Flat, low lying ground is much easier to build on compared to mountainous land.
