Design and Optimization of Mechanical Engineering Products Kumar, K., Davim, J. Paulo, 2018-02-02 The success of any product sold to consumers is based largely on the longevity of the product This concept can be extended by various methods of improvement including optimizing the initial creation structures which can lead to a more desired

product and extend the product's time on the market. Design and Optimization of Mechanical Engineering Products is an essential research source that explores the structure and processes used in creating goods and the methods by which these goods are improved in order to continue competitiveness in the consumer market. Featuring coverage on a broad range of topics including modeling and simulation, new product development, and multi-criteria decision making, this publication is targeted toward students, practitioners, researchers, engineers, and academicians.

Giri, R.B. Chadge, 2024-06-17. The main aim of the 2nd international conference on recent advances in materials, manufacturing, and machine learning processes 2023 RAMMML 23 is to bring together all interested academic researchers, scientists, engineers, and technocrats and provide a platform for continuous improvement of manufacturing, machine learning, design, and materials engineering research. RAMMML 2023 received an overwhelming response with more than 530 full paper submissions. After due and careful scrutiny, about 120 of them have been selected for presentation. The papers submitted have been reviewed by experts from renowned institutions, and subsequently, the authors have revised the papers, duly incorporating the suggestions of the reviewers. This has led to significant improvement in the quality of the contributions. Taylor Francis publications, CRC Press, have agreed to publish the selected proceedings of the conference in their book series of *Advances in Mechanical Engineering and Interdisciplinary Sciences*. This enables fast dissemination of the papers worldwide and increases the scope of visibility for the research contributions of the authors.
