

## Japanese Modernization

Japan modernized

First Japan made the transition from feudalism to modernity including the great changes that brought modernization to Japan

Japan ruled by military government in the 1800s

They have a feudalistic authoritarian political structure

The government imposed strict social order in 1800s

They modernized without losing identity ... but also could have been called  
1. Except for military, a few Christian missionaries

The Christians had been in Japan since 1600s

They had a low level Christianity exposure

They had a strong self-identification between the West and the Japanese

In the 1800s, the Europeans (Portuguese and the Americans who discovered them)

The Christians had formed the Japanese Christian Community and the movement of finding a proper identity

Christianity came

Christians are starting to convert to the faith. They had been in Japan since 1600

The Christian community was growing, they were in Japan long

Japan had a strong self-identity in the 1800s

They were a small but strong community in Japan. Christianity had been introduced to them in

Several centuries ago. They were around the country ... their presence

Why would they need the challenge of imperialism when they were present?
