Human-Plant Entanglement: Thinking with Plants in the Anthropocene, 2025-06-12 Human Plant Entanglement Thinking with Plants in the Anthropocene is an edited collection that redefines the boundaries of phytocentric scholarship By foregrounding the question of the Anthropocene at the centre of plant studies this book illustrates how attentiveness to plant life can allow our habitual anthropocentric instrumental assumptions to be invaded by a unique phytocentric impression that presents a new ethical imaginary for a human plant relationship With twelve carefully argued essays this book sets a new benchmark in the field of Critical Plant Studies *Charles Edenshaw* Daina Augaitis, Robin K. Wright, 2013 A retrospective of the iconic Northwest Coast artist s oeuvre shares insights into his blend of traditional materials and designs with innovative personal techniques drawing on interviews with regional descendants to explain Edenshaw s heritage and the ways in which his achievements reflect Haida culture **On Aboriginal representation in the Gallery** Lydia

Browne,2016 During the groundbreaking Charles Edenshaw exhibition at the Vancouver Art Gallery in 2013 poet Colin Browne found himself returning often to study three large argillite platters carved by the Haida master in the late 1800s Produced several years apart each depicts an identical scene at the same moment two frightened figures in a canoe appear to be on a mission One is the Raven in supernatural form brandishing a spear the other in the stern is a human like figure with a circular head On one platter he holds a paddle on the other two his arms are raised in a state of panic He is the helmsman known as Fungus or Fungus Man or Biscuit Man The Raven and Fungus Man appear early on in the Haida epic poem Raven Travelling not long after the Raven releases human men from a clamshell Their mission is to enable men and women to go forth and multiply The three platters celebrated not only for their craftsmanship but also for their insight into the psyche are rarely brought together in one place and the fact that Edenshaw returned with a sense of humour to this primal scene suggests that the theme was as important to him as it was to his contemporary Sigmund Freud Browne launches his unexpected journey of discovery with a simple question Who was Fungus or Fungus Man and why did he become the one responsible for the miracle of human procreation Every good story is an origin story and a mystery story and in *Entering Time The Fungus Man Platters of Charles Edenshaw* Browne ranges through the fields of art history literature ethnology and myth to discover a parallel history of modernism within one of the world s most subtle and sophisticated artistic and literary cultures

Gone Whaling Douglas Hand,1996 In the darkened halls of the American Museum of Natural History in New York City Douglas Hand encountered a killer whale with the head of a man emerging from the blowhole This puzzling and haunting specter was carved on a worn cedar totem pole of the Haida Native Americans of the Northwest coast What indigenous wisdom inspired orca and human to be wrought together in wood Indeed where does one species begin and the other end *Gone Whaling* is the exquisitely rendered account of a journey to the waters of the Pacific Northwest to find answers to those questions as well as to track down the essence of orca that wildest of animals The quest takes the author first to the Vancouver Aquarium where he encounters orcas in tanks and scientists who blur the lines between research and showmanship Moving out to the San Juan

Islands he locates Ken Balcolm marine biologist and orca census taker who deciphers the familial dynamics of the whales by tracking their far migrations From there he is led to the controversial researcher Paul Spong known as the patron saint of the whales who is mapping the clicks and squeaks the orcas make as they travel by his home on remote Hansen Island But science can go only so far in providing a real understanding of the mystery of these creatures of the sea so Douglas Hand turns to the last remaining Haida totem carvers to explain what orca means In the end he is inspired to take on the dangerous waters himself in a one man kayak to encounter his own orca Gone Whaling is rich with natural history and human stories The mysterious and deeply complex behavior of orcas is described with crystalline detail and style The inquiry itself is infused with the author's boundless curiosity and tempered with his wry humor This luminous and confident book appeals to the part of us all that has pondered the deep rift between humans and other creatures between the modern and the primitive There is an old Haida belief that a good life is rewarded by death and rebirth as an orca Therefore you should treat the orca well that swims close to shore for it may be your ancestor This special book probes the boundary that separates and binds humans to killer whales and humans to the natural order
