**Reports** Missouri. Division of Geological Survey and Water Resources,1896 [Voice, agency, empowerment - handbook on social participation for universal health coverage](#) ,2020-12-21 Social participation is an important means for governments to develop responsive health policies and programmes which are more likely to be implemented by a broad stakeholder group It is at the heart of the inclusive governance needed for countries to stake their individual paths towards Universal Health Coverage while ensuring that no one is left behind As simple as it may seem in theory it is a complex undertaking in practice one which policy makers struggle with The Handbook on Social Participation for UHC is thus designed to provide practical guidance anchored in conceptual clarifications on strengthening meaningful government engagement with the population communities and civil society for national health policy making It draws on best practices and lessons learned to support government institutions in setting up fine tuning improving and institutionalizing new or existing participatory health governance mechanisms The handbook follows through the different tasks which policy makers must reflect on and

undertake when bringing in people's voice into health policy making Examples include creating an enabling environment for participation ensuring good representation strengthening capacities increasing policy uptake of participatory process results and sustaining participatory engagement over time A fundamental premise of the handbook rests on the idea that policy makers can leverage format and design elements of a participatory process to address power dynamics amongst participants thereby fostering more meaningful contributions to the process
