Chapter 1 Financial Statements and Business Decisions

ANSWERS TO QUESTIONS

1. Accounting is a system that collects and processes (analyzes, measures, and records) financial information about an organization and reports that information to decision makers.
2. Financial accounting involves preparation of the four basic financial statements and related disclosures for external decision makers. Managerial accounting involves the preparation of detailed plans, budgets, forecasts, and performance reports for internal decision makers.
3. Financial reports are used by both internal and external groups and individuals. The internal groups are comprised of the various managers of the entity. The external groups include the owners, investors, creditors, governmental agencies, other interested parties, and the public at large.
4. Investors purchase all or part of a business and hope to gain by receiving part of what the company earns and/or selling the company in the future at a higher price than they paid. Creditors lend money to a company for a specific length of time and hope to gain by charging interest on the loan.
