But first let's look at the definition of affiliate marketing. To put it plainly, affiliate marketing is a cycle of getting commissions or a cut for promoting a product or service that is not owned or produced by you. This person can be a company, organization, or a sole entrepreneur. You find a product that you know and like, promote it to your channels and audience, and accrue profit for every sale made. Affiliate marketing is the arrangement whereby an affiliate earns a commission for completing an agreed-upon marketing objective. Commonly, the affiliate markets products and services belonging to a third party, and they earn a commission for each customer they bring on board. This economic arrangement has existed for as long as businesses have been around, but it became much more pronounced in the age of the internet. There are many affiliate marketers who earn six and seven figures. The beauty of affiliate marketing is that there are almost no barriers, and all you need is an internet connection, and you are good to go. This book covers the following topics: Information on Affiliate Marketing, Give you the Correct Mindset for Affiliate Marketing, Insights on the Top Affiliate Networks, Ads and Copywriting, Information on Tracking Tools, Spy Tools, and SEO. And so much more. Driving traffic is essential to the success of your affiliate marketing plan. If you do not have traffic, you can't sell the products, so sales and traffic go hand in hand. When you are new to affiliate marketing, it can seem overwhelming to think about getting traffic; long-established sites seem to have a lot of it, and it can seem like you will never get there. The good news is that if you break down getting traffic into easy steps, just like the other strategies we have covered, you will find that it is easy.
