Essentials of Mathematical Statistics Brian Albright, 2014 This text combines the topics generally found in main stream elementary statistics books with the essentials of the underlying theory The book begins with an axiomatic treatment of probability followed by chapters on discrete and continuous random variables and their associated distributions It then introduces basic statistical concepts including summarizing data and interval parameter estimation stressing the connection between probability and statistics Final chapters introduce hypothesis testing regression and non parametric techniques All chapters provide a balance between conceptual understanding and theoretical understanding of the topics at hand

Precalculus: A Functional Approach to Graphing and Problem Solving Karl Smith, 2013 Precalculus A Functional Approach to Graphing and Problem Solving prepares students for the concepts and applications they will encounter in future

calculus courses In far too many texts process is stressed over insight and understanding and students move on to calculus ill equipped to think conceptually about its essential ideas This text provides sound development of the important mathematical underpinnings of calculus stimulating problems and exercises and a well developed engaging pedagogy Students will leave with a clear understanding of what lies ahead in their future calculus courses Instructors will find that Smith's straightforward student friendly presentation provides exactly what they have been looking for in a text

Foundations of Higher Mathematics Peter Fletcher, C. Wayne Patty, 1987 This text introduces students to basic techniques of writing proofs and acquaints them with some fundamental ideas The authors assume that students using this text have already taken courses in which they developed the skill of using results and arguments that others have conceived This text picks up where the others left off it develops the students ability to think mathematically and to distinguish mathematical thinking from wishful thinking
