The Calculus Collection Caren L. Diefenderfer, Roger B. Nelsen, 2010-12-31 The Calculus Collection is a useful resource for everyone who teaches calculus in high school or in a 2 or 4 year college or university It consists of 123 articles selected by a panel of six veteran high school teachers each of which was originally published in Math Horizons MAA Focus The American Mathematical Monthly The College Mathematics Journal or Mathematics Magazine The articles focus on engaging students who are meeting the core ideas of calculus for the first time The Calculus Collection is filled with insights alternate explanations of difficult ideas and suggestions for how to take a standard problem and open it up to the rich mathematical explorations available when you encourage students to dig a little deeper Some of the articles reflect an enthusiasm for bringing calculators and computers into the classroom while others consciously address themes from the calculus reform movement But most of the articles are simply interesting and timeless explorations of the mathematics encountered in a first course in calculus

Stochastic Models, Information Theory, and Lie Groups, Volume 1 Gregory S. Chirikjian, 2009-09-02 This unique two volume set presents the subjects of stochastic processes information theory and Lie groups in a unified setting thereby building bridges between fields that are rarely studied by the same people Unlike the many excellent formal treatments available for each of these subjects individually the emphasis in both of these volumes is on the use of stochastic geometric and group theoretic concepts in the modeling of physical phenomena Stochastic Models Information Theory and Lie Groups will be of interest to advanced undergraduate and graduate students researchers and practitioners working in applied mathematics the physical sciences and engineering Extensive exercises and motivating examples make the work suitable as a textbook for use in courses that emphasize applied stochastic processes or differential geometry
