Cambodia South Korea Relations Wordpress:

South Korea's New Southern Policy Lam Peng Er,2023-04-17 This book examines the first regional strategy of South Korea toward Southeast Asia and India At issue is how a middle power a G20 country with the tenth largest economy in the world seeks to play a larger and more comprehensive role in regions beyond the Korean peninsula Hitherto South Korean foreign policy has focused on nuclearizing North Korea alliance maintenance with the United States tricky relations with its most important economic partner China and difficult ties with Japan marred by historical and territorial disputes The Moon Administration has sought to diversify South Korean foreign policy by elevating ASEAN and India to the same strategic level as the United States China Russia and Japan To be sure the latter countries continue to be most significant to the Korean peninsula However this book offers different country and regional perspectives on Seoul s first regional grand strategy to play a role commensurate with its status as a middle power

Regional Community Building in East Asia Lee Lai To,Zarina Othman,2016-09-01 This volume is a collection of papers written by nationals or former nationals of the respective country in ASEAN and Northeast Asia Unlike other works written by scholars outside ASEAN or East Asia it offers an insider s point of view of the 10 ASEAN states China Japan and South Korea on regional community building While a nationalist perspective may permeate throughout the study it is also clear that pursuing regional cooperation is considered to be important by the respective author denoting the non exclusivity between nationalism and regionalism and the mutual reinforcement of the two Each author of this volume has made a deliberate effort to introduce and survey the developmental challenges and experiences of his or her country from a historical perspective All authors without exception have emphasized the importance and advantages in staying with ASEAN or linking up with ASEAN by China Japan and South Korea in political security economic and socio cultural terms Their papers also reveal that the self help and self strengthening mechanism emphasized by the ASEAN Plus Three process will take time to bear fruits In the meantime it seems that bilateral interactions and cooperation between ASEAN and Northeast Asian states remain to be more dominant as shown in this study One can argue that bilateral interactions are the building block of multilateralism interactions To be sure there is a deliberate effort in this study to highlight unity in diversity in East Asia in general and ASEAN in particular

The Hungry Dragon Sigfrido Burgos Caceres,Sophal Ear,2013 China s ubiquitous presence in Africa Asia and Latin America is reshaping the world with regards to economics politics and national security This book offers a comprehensive examination of China s energy security strategy

From Migrant to Worker Michele Ford,2019-04-15 What happens when local unions begin to advocate for the rights of temporary migrant workers asks Michele Ford in her sweeping study of seven Asian countries Until recently unions in Hong Kong Japan Malaysia Singapore South Korea Taiwan and Thailand were uniformly hostile towards foreign workers but Ford deftly shows how times and attitudes have begun to change Now she argues NGOs and the Global Union Federations are encouraging local unions to represent and advocate for these peripheral workers and in some cases

succeeding *From Migrant to Worker* builds our understanding of the role the international labor movement and local unions have had in developing a movement for migrant workers labor rights Ford examines the relationship between different kinds of labor movement actors and the constraints imposed on those actors by resource flows contingency and local context Her conclusions show that in countries Hong Kong Malaysia and Thailand where resource flows and local factors give the Global Union Federations more influence local unions have become much more engaged with migrant workers But in countries Japan and Taiwan for example where they have little effect there has been little progress While much has changed Ford forces us to see that labor migration in Asia is still fraught with complications and hardships and that local unions are not always able or willing to act

[The Oxford Handbook of the Responsibility to Protect](#) Alex Bellamy, Tim Dunne, 2016-06-30
The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade
