(Re)imagining Translanguaging Pedagogies through Teacher-Researcher Collaboration Leah Shepard-Carey, Zhongfeng Tian, 2023-06-08 This book presents one possible pathway towards the advancement of translanguaging pedagogies teacher researcher partnerships Although the existing literature alludes to the value of such partnerships there is a lack of research that explicitly describes the complex processes of designing and implementing translanguaging pedagogies in primary and secondary school settings K 12 across various international contexts Through an expanded focus on teacher researcher collaboration and the negotiation process the book unpacks the opportunities and challenges of engaging in contextualized translanguaging designs with reference to broader ideological discourses and systemic structures By promoting and highlighting teacher researcher partnerships as one avenue for improvement and transparency the chapters in this book demonstrate the potential of translanguaging pedagogies in classrooms and further resist the linguistic hierarchies that exist in educational institutions today

Early Language Learning in Context David Hayes,2022-08-19 This book critically analyses early school foreign language teaching policy and practice foregrounding the influence of the socioeducational and cultural context on how policies are implemented and assessing the factors which either promote or constrain their effectiveness It focuses on four Asian contexts Malaysia South Korea Sri Lanka and Thailand while providing a discussion of policy and practice in Canada and Finland as a comparison Concentrating on the state school sector it criticises the worldwide trend for a focus on English as the principal or only foreign language taught in primary schools founded on a rationale that widespread proficiency in English is important for future national success in a globalised economy It maintains that the economic rationale is not only largely unfounded and irrelevant to the language learning experiences of young children but also that the focus on English exacerbates system inequalities rather than contributing to their reduction The book argues for a broader perspective on language learning in primary schools one that values multilingualism and knowledge of regional and indigenous languages alongside a more diverse range of foreign languages This book will appeal to educational policymakers researchers and students interested in early foreign language learning in state educational systems worldwide Write Right ,1999
