How many DStv error codes do you know? What does error code E18 mean? Here are some DStv error codes that you should be aware of and how to clear them.

## **Error code E16-4**

if you have not paid for the channel, then you should make a payment. In case your account is not suspended for delayed payments, press My Account to clear this error code. Alternatively, you can clear it using the form on DStv website's right part.

## **Error code E143-4**

This is a hardware issue. So, try removing the Xtraview or RF cable from the decoder, powering down the decoder at the plug, and reconnecting after five minutes. Make sure the heartbeat cable is properly connected.

## **Error code E30**

You should have a little patience while your subscription is undergoing verification. In normal cases, this error should disappear after 2 minutes, but if it does not, contact the DStv Contact Center.

## **Error code E18**

Just connect whatever has been disconnected, wait for fifteen minutes, and enjoy the services. Re-insert the correct card, arrow facing the decoder and the chip facing downwards and then reboot the decoder. Make sure the card is clean.

## **Error code E04**

Switch off the DStv decoder, remove the card, gently wipe it with a dry piece of cloth, and reinsert properly (chip facing downwards, arrow facing the decoder). If the error still appears after doing this, reboot your decoder, and visit the nearest DStv office because the card or the decoder may be damaged.
